

By Phat

At my age, yet, I made my debut as a radio commentator last week. Tried to get out of it but Clint Jones kept insisting, so, reluctantly, I went on the air over KCMJ. It was fun . . . But before I found that out I was afraid I'd get mike fright and spoil the show . . . "Clint," I said, "I'll get stuck." . . . He assured me I wouldn't get stuck—but he was wrong . . . I did. Not before the mike but afterwards in the sand outside of the studio. . . . Clint had to shovel me out and it was a beautiful sight . . . But now I know what KCMJ stands for . . . As I started to pull away, Clint raced alongside and yelled: "Keep Car Moving, Jerk."

THE VILLAGE—People of Palm Springs really have big hearts. In the first few days after The Sun asked Villagers to share their food with the starving peoples of Europe, the cans literally rolled through the door here. The Chamber of Commerce and post-office also reported a deluge of food. Many checks are also coming in . . . Here it is the second week in May and it's still tough to find parking space . . . Herb Cain, San Francisco Chronicle, who recently took a crack at our weather, thinks Palm Springs is pretty good, after all. As a result of his comments, The Sun sent Wild Bill Rashall and Photographer Frank Partridge to San Francisco to look that place over and find out why so many San Franciscans came here despite that "weather." Comes a complimentary letter from Cain this week, also thanking us for the mention given "H.C."

THE MAIL—"I have a big beef to make this week," writes a woman. "Why can't something be done about these speculators who buy local property and then do nothing about the upkeep of the grounds while waiting to make a neat profit on their deal? There's a place next to me which had a beautiful garden. It was sold recently and the new owner, who does not intend to live here, is just waiting a buyer, has not done a thing to the grounds. They are beginning to look terrible. Other people have made the same complaint." . . . "Did you hear that radio comment the other day that it was 115 here? I haven't an official thermometer but I went right out and looked at my drug store instrument and it only registered 109. How come?" comes a card. The official reading that day was 104, sir.

ODDS AND ENDS—Sat next to a party at a local food counter the other day and overheard a "Villager," so he said, tell his guests that this weather was nothing. "I'm an old timer here and I've seen it go to 135 day after day." That boiled me (not the 135, but the remark) so I butted in. Asked him how long he'd been here. A year, he said. "Well, I've only been here four years and the hottest I've seen it was 117 and that was just once." He didn't like it . . . Levering Moore brought me a copy of the Wall Street Journal this week pointing an article about records. The item set forth that 300 million records had been out by record companies in the year and that if anyone wanted to play them all, he wouldn't be through until 3049 . . . even if he played steadily. . . . Reminds me, some day I'm going to start at one end of my collection and play all of them. Three hours nightly and I ought to be through by December.

MUSIC—Sort of fell on my face last week. Picked three for the three top spots and only one got there. That's better than I did in the Derby, however . . . But "Onezy, Twozy," which I listed as a dark horse, was No. 2 and remember what I said about goofy numbers coming back? Well, that Shoo-Flly and pansomething, was No. 3 . . . I like that Ashby de la Zooch thing. Even the words of the song itself bemoan the fact its got such a name. But the music is good and it'll probably go on up . . . Then there is "Laughing on the Outside," a torch number, that should get there, too . . . Found a Hal Kemp Memorial album the other day that boosted my collection of the old-time but still popular tunes by eight.

THIS AND THAT—Wherever Villagers go for the summer, they can hear the music they enjoyed while here. Wes and Judy, formerly of the Rainbow room, are at the Balboa Inn for the summer. Gene and Gwen Bari at La Jolla. Bob Hull is still at Mike Lyman's in Hollywood. Joe Frisco in North Hollywood . . . Have you tried the driving in Los Angeles since the tram and bus strikes? It's worse than Palm Canyon drive on a busy Saturday . . . Ultimate unification of the elementary and high school boards so that the combined groups can afford to provide the tops in education in local schools, is the aim of civic leaders here.

LASTLY—Think I'll buy myself a flock of detective stories. The front pages of the daily newspapers these days aren't very happy reading . . . It seems we didn't know our own strength this week. As a result you'll see a Page 6-A and a Page 6-B today. At the last moment we had to jump two pages so that we could give you all the news . . . Reminds me, a New York paper has the slogan "All the News That's Fit to Print." If we hadn't added those two pages, our slogan might have been "All the News That Fits We Print."

Food Piling Up For Starving Europe

Chamber Elects New Directorate

Board Meets Today To Elect President, Plan for New Year

Directors of the Palm Springs Chamber of Commerce, 21 of them elected at the annual meeting Tuesday night, will elect officers for the 1946-47 season at the reorganization meeting today, according to plans.

Members of the new and old board will meet for luncheon at the Desert Inn at 12:30 p.m., with Robert Ransom, outgoing president, presiding. New officers to be chosen at the luncheon session take office on June 1. Those to be elected are president, two vice-presidents and treasurer. Thirty-five directors, seven of them representing the homeowners division of the chamber, comprise the directorate with the addition of committee chairmen.

FIFTEEN ELECTED

Fifteen new members of the board of directors from the business division of the organization were elected Tuesday night as follows: Arthur Bailey, Leo Baker, Frank Bennett, Dwayne Bardwell, Joseph Butler, M. A. Charleston, James Coffman, Philip Delano, Wilson Gibbs, Barney Hinkle, William Nash, Culver Nichols, Stanley Rosin, Earle C. Strebe and Frederick Watson. They will serve until June, 1948.

HOLDOVER MEMBERS

Holdover members of the board of directors are: J. E. Ballard, Florian Boyd, Philip Boyd, Earl Coffman, Francis F. Crocker, Ruth Hardy, Harold J. Hicks, W. R. Hillery, Fred G. Ingram, Cecil Isenagel, Kenneth B. Kirk, Carl G. Lykken, Robert Ransom and Harold Murphy. Mr. Kirk comprises the seventh member of the homeowners division representatives, part of whose terms will be set this year for one year and the remainder for two years.

TALK FLOOD CONTROL

Describing the function of the Riverside County Flood Control and Water Conservation District, Max Bookman, its chief engineer, addressed the group after being introduced by Culver Nichols of Palm Springs, chairman of the Sixth Zone board of commissioners. The other two zone commissioners, W. R. Hillery of Cathedral City, and Herbert Samson of Palm Springs, were introduced.

TALK FINANCING

Flood works may be financed under the flood control act by direct taxation which is limited to 38 cents per \$100 of assessed valuation, or by bond issue approved by residents of the district, he said.

Development

The west-half of Section 15, described as Township 4 South, Range 4 East, which is the mountain in the West one-half of the City of Palm Springs, has been sold to R. D. Herzog of Los Angeles.

City's Plan For Torney Is Endorsed

Hospital Association And Council Join in Acquisition Program

Pride in civic unity and achievement won out late Thursday afternoon when the city of Palm Springs and the Community Hospital Association patched up their differences of opinion relative to the acquisition of the Torney General Hospital property and joined forces.

Following a meeting of several members of the city council, including City Manager William E. Alworth, with directors of the Community Hospital, the latter organization after an hour and a half of deliberation and discussion endorsed the city's application to the government for the acquisition of the entire Torney General Hospital property.

GET TOGETHER

Prior to this meeting and despite the warning of Congressman John Phillips that both the city and the hospital association would lose unless they joined forces, no solution to the differences involved seemed near.

Appearing before the regular meeting of the city council last Wednesday afternoon, Alworth frankly stated the good case of the city and at the same time paid an equal amount of tribute to the contention of the directors of the Community Hospital Association. In this fashion he was able to persuade "hard to win" councilmen to agree to meet with the directors of the hospital with the result that both sides were conciliated to one view point.

BACK CITY PLAN

This meeting resulted in hospital directors voting to endorse the application of the city to acquire all of the property of the Torney General Hospital, thereby, according to good authority, fortifying the plea of the city that the entire property be turned over to Palm Springs.

Following this agreement, the directors worded a telegram to Congressman Phillips advising him of the action which occurred Thursday. This, it is expected, will help considerably in clarifying the tangled situation which has existed for several months as to the disposition of the property in the minds of Washington.

At the same time it was pointed out the city of Palm Springs, in (Please Turn to Page 6-A)

Wanna Reduce?

Ride a Bike—Ohrts Set New Record Here

Want to lose a few pounds—regain that slender figure? Then ride a bicycle 132 miles. That's what Mr. and Mrs. Hans Ohrt said Tuesday when they dismounted from their tandem bicycle at the Desert Inn after pedaling 132 miles from their Beverly Hills shop.

And this time they broke all records for the trip. They made it in eight hours and ten minutes actual riding time. Including time to eat, they reached here within ten hours after leaving Beverly Hills.

Perfect weather, excellent highway conditions and unanimous courtesy by motorists along the route, enabled them to set the new record.

But as to that first paragraph—Ohrt lost ten pounds and Mrs. Ohrt six pounds on the ride down here.

It was their sixth annual tandem vacation and the best of them all. They will be at the Desert Inn a few days before returning home.

Rancho Mirage Blacked Out When Plane Clips Power Line and Flies on
Rancho Mirage was dark Wednesday night. For an hour and ten minutes there was no light or power.

SHE KNOWS WHAT IT MEANS—Miss C. Louise deposits canned food for Europe's starving at the Desert Sun office. She knows how much food is needed overseas—as result of a personal tragedy. Besides the Food Depot at The Sun office, there is one at the post office and one at the Chamber of Commerce. Donations are coming in rapidly—but they cannot come in too rapidly. (Gayle Studio photo.)

One Contest Scheduled on School Ballot

Voters of the Desert School district and the Palm Springs high school district will go to the polls a week from today to elect members for the board of trustees for the coming terms.

In the high school district there is no contest. Dr. Frank Purcell, whose term expires, is the only candidate on the ballot. Precincts will be at the Frances S. Stevens school here and at Edom.

TWO SEEK PLACE

In the Desert School district there is a contest for the one position relinquished by Mrs. Nellie N. Coffman, Village pioneer who has been instrumental in the great development of the local school system since its inception. She declined to run for re-election this year.

The two candidates seeking the vacant post are W. R. Hillery of Cathedral City and C. S. Bassett, veteran of World War I.

Hillery was persuaded to enter the race because Cathedral City is part of the Desert district and also because he is a member of the high school board. The thought was that the two boards could be closer coordinated by having one member serving on each. Bassett entered the race because he has children in the local schools and said a parent should be on the board.

FROM 1 TO 6

The Desert district election will be held at the Frances S. Stevens school and the polls will be open from 1 p.m. to 6 p.m. for both the elementary and high school elections.

Holdover members of the high school board are Charles J. Burket, president; Gordon Feekings, clerk; W. R. Hillery and Judge E. E. Theriault.

Holdover members of the Desert district board are Mrs. R. F. Outcault, clerk, and Mrs. Melba Bennett.

Recovering Assemblyman Boyd In Action Again Soon

Philip Boyd, assemblyman from this district, is recovering in Riverside Hospital from a severe attack of pneumonia and will be back in action soon.

In the meantime, friends of the assemblyman here and in Riverside, have taken over his campaign for re-election at the primaries on June 4.

Assemblyman Boyd, in his first term at Sacramento, played a prominent part in legislation, not only for his district but, for the entire state.

Legion Votes To Complete Lot Purchase

Vision of a World Wars Memorial building for Palm Springs was a step closer today following the action of the Owen B. Coffman Post, American Legion, voting unanimously Tuesday night to pay off the balance of indebtedness on the building site.

Approximately \$7,000 balance of the \$9,000 sales price was voted to be paid to Pearl McManus, original owner of the property. In doing so, the Legion Post will save approximately \$400 per year in interest, it was pointed out. Members were optimistic in their hopes that the \$75,000 goal set as the cost of the Wars Memorial Building will have been raised by the end of the next winter season.

REPORTS ON CIRCUS

Commander Harold Lienau reported to the Post that its coffers will be swelled to the extent of \$12,000 when the directors of the Palm Springs Circus association meet next fall. This amount, he said, was accumulated as a result of the 10th Annual Circus with the Owen Coffman Post as the beneficiary.

The first ex-service woman of World War II, Peggy R. Scott, was admitted to membership in the Owen Coffman Post. A member of the WAC, her application indicated that she was discharged in Manila, P. I., February, 1946. Cecil B. Perryman, M. S. Seth and Robert W. Steffey, were three other veterans added to the membership roles on Tuesday night. The Post now boasts of 235 veterans on its rolls.

OUTLINES PROJECT

Jack Kenny, blinded during the first World War, addressed the group. He outlined a project for which he is raising money to be dedicated to the rehabilitation of veterans blinded in this war. In a stirring speech he declared that the only person who can bring the "early blinded" (Please Turn to Page 6-B)

Villager Has Personal Urge To Give Food

By WILLIAM RASHALL

The cruel realities of life confronting the starving peoples of the war-ravaged European countries was brought home forcibly in the Village this week when Miss C. Louise, in Palm Springs for the past year and one-half, came to The Desert Sun office with several cans of food to deposit in the food depot.

She had an especial reason to bring in the cans of food which she placed on the growing pile. She was reluctant to talk at first, but pieced together, her story unfolded the tragic details of the death of her sister, Mary Marguerite, in Alsace-Lorraine.

DUE TO STARVATION

Her sister died as result of starvation.

Mary was around 60 years of age, Miss Louise, member of Our Lady of Solitude choir, said. First the town in which Mary lived was occupied by the invading Germans. When they retreated toward the end of the war ahead of General Patton, the village was pounded to pieces by shells and aerial bombs.

Throughout these months, as opposing armies swayed back and forth, agricultural pursuits of any type were out of the question. Most of the people of Mary's village hid in cellars and other places of refuge. Farmers abandoned their plows. Livestock was either driven from the area or killed by explosives and allowed to decay in the fields.

HUNGER SHOWS UP

When the armies had moved on the stillness even portended a more ominous future if that were possible. It was:

Hunger! First it was felt here and there among the people. It began to stalk at the very heels of the war victims. Later it went to bed with them. Hunger was there again in the morning with the rising sun. It became an insistent visitor throughout the day. Every day. Money? Gold? This method of exchange for goods was still good. But for food—gold was worthless.

Now the gnawing pain spread outward until it was reflected in the sunken eye-sockets of hunger victims. Those who were lucky enough to know one of the few farmers who had returned to till the soil by this time considered themselves more than fortunate. Occasionally he would dole out a few vegetables—and that was all. "Don't come back too soon—not for a week, or even a month!"

IN PITIFUL AMOUNTS

Finally it became permissible to send food to relatives overseas (Please Turn to Page Eight)

Palm Springs Again Rises To Situation

Hundreds of Cans Of Food Contributed At 3 Local Depots

Food for starving Europe is piling up at the three food depots in Palm Springs.

Responding to the appeal of the Desert Sun two weeks ago, Villagers have been piling up upon can of food which will soon be shipped to the starving people of war-torn countries. The three depots, to which warm-hearted Villagers have been beating a path, are the Desert Sun office, Chamber of Commerce and the Post Office.

U. S. DRIVE SUNDAY

The national drive for the collection of food starts on Mother's Day, May 12. Palm Springs, by virtue of the drive started by the Desert Sun two weeks ago, is in the vanguard of cities asked to help.

Henry A. Wallace, secretary of Commerce, learning of the Desert Sun drive wired R. F. (Phat) Graettinger, editor of this publication asking him to accept the chairmanship of the local drive. He immediately wired acceptance.

With the national impetus now given to the local campaign, the drive to remind people here that a can of food contributed today will save a life tomorrow, will get under full steam.

Frank Partridge, leader of the Palm Springs Boys club, announced that that organization of young men would go all out in the drive for canned foods.

KCMJ, through its manager, Clinton Jones, has offered to plug the program over the air, urging people to remember the hungry overseas.

The wire from Henry Wallace urged "Phat" Graettinger to seek the assistance of local civic and fraternal organizations to participate and lend their support. The message emphasized that cash contribution would be more than gladly accepted. It was pointed out that greater amounts of food could be bought through a central purchase agency for each dollar than the average citizen would receive. However, the same stress on the need of canned foods was highly acceptable.

DETAILS ON WAY

Further details on the length of the drive, how the food is to be packed and shipped, is forthcoming by airmail, according to the telegram.

Meanwhile, it is urged that every citizen carry before him a picture of some person overseas asking for food, when he or she buys a can of beans, corn, or what have you.

Palm Springs High School Smoke Signal

Girls' Glee Club Presents Program Of Kern Melodies

The Palm Springs High School Girls' Glee Club was heard in a program of charming old musical favorites written by Jerome Kern, directed and accompanied at the piano by Miss Ruth Ashcroft, of the music and arts department. The program was given before an assemblage of students last Thursday, May 2, in the P. S. H. S. auditorium.

The program began with the singing of our national anthem—"The Star-Spangled Banner".

With a cast which included: Jenny Strite, Vivian Gautiello, Barbara Thompson, Marilyn Miller, Ann St. Clair, Pat Fowler, Mary Louise Klug, Mary Jo Graefe, Cora Green, Nancy Nye, Audrey Bentsen, Elaine Purnell, Marjorie Porter, Marlene Walcott, and Ann Oliver, the Girls' Glee members, a symphony in white, lined the stage to sing such well-known Kern favorites as "Who," soloed by Pat Fowler, and supported by the chorus; "Make Believe," and "Look For the Silver Lining".

A special rendition of our school song was given by Miss Ashcroft at the piano and the "Glee Clubbers". Later on in the term a vote will be taken by a student poll on a popularity basis as to the suitability of this variation which is supposed to replace the tune now being used.

The highlight of the musicale was the audience participation in a community sing. The numbers sung were: "Anchors Aweigh", "Long, Long Trail", "Can't You Hear Me Callin' Caroline", "Yale Boole".

In conclusion, the Hawaiian farewell song "Aloha", was sung in nostalgic grandeur.

Acting as a charming mistress of ceremonies, and also announcing each number from the microphone on the stage, was Mary Jo Graefe.

As an after thought, it may be said that the girls exhibited much of the results of careful preparation in achieving poise, melodious clarity and the continuity which has already gained them much popularity wherever they went this year.

They've Gone

ON THE WARPATH

By ED WILLS

The tennis team walked away with the second R.C.L. meet on Wednesday, May 1, on Coachella's courts. Coachella was no match for our powerful net-men as Palm Springs won every match in singles and doubles.

With one more meet before the finals at Hemet our record stands without a defeat from first singles to second doubles.

Scores were: 1st singles, McLearn won 6-1, 6-1. 2nd singles, Williams won 6-2, 6-0. 3rd singles, Brummitt won 6-3, 5-7, 9-7. 4th singles, Peterson won 6-3, 6-0. 1st doubles, McLearn and Williams 6-0, 6-0. 2nd doubles, Archer and Hoover, 6-3, 6-3.

On Saturday the R.C.L. track meet was held at Riverside with all nine schools participating. Several Palm Springs boys distinguished themselves in various events although as a team scoring was fairly weak.

In Class A, Don Croshier carried our colors to a brilliant victory in the 120-yard high hurdles. Joe Brummitt held true to form

Johnny Martineau Elected Big Chief Of P.S.H.S. Tribe

By MERB MENNELL

Johnny Martineau is the Big Chief of the Tribe. He was elected to office on Monday, May 6. Other officers will be elected in the fall.

Coach Scott Thompson announced during the meeting that next year's prospective football team will have its first meeting on September 9, at 6 a.m., on the football field. Coach also announced next year's football schedule.

Two boxing bouts were held, too, first was between Bill Cary and Mort Algase. After three rounds Bill Cary was proclaimed victor. The second bout was one round between "Willy" Hernandez and Jerry Johnson. Willy won this bout.

Poster Goofy

By HAL MINTZ

No, no, not this—anything but this—beat me, starve me, put me in Algebra, but don't make me look at another poster, please don't, I beg you! All I see where ever I go are posters, posters and more posters. I can't stand it any longer, I'm losing my mind. I'm going crazy, I tell you!

I walk into the office to buy a pencil (with a borrowed nickel) and what do I see—"Williams and Wills", "Williams and Wills". Then I walk a few steps more and I see more posters—this time it's Croft, but it's still one of those daggone posters. And then I begin running into Searles' masterpieces—then some beautiful posters by Archer, but I guess if I had as "tuff" competition as he does, I'd campaign too.

And now we find one by Heller. Ow! I'm getting tired looking at these colors. I'm going to sit on the grass and relax for a few moments. Oh no! I used to enjoy sitting on the grass because there was a sign that said not to. But now the sign says "SEARLES" instead of "Keep Off". I'm on the verge of a nervous breakdown! If I have to look at another poster I'd pass out for sure. I'll go to my locker, get my history book and study for a while—maybe that'll take my mind off the elections. Oh, not again! This is the last straw! I go to open my locker and what do I see? Another poster—"Woodward for President!"

I'm surely glad that by the time this paper comes out the elections will be over. Then I'm going to start a bonfire and I'll give you three guesses as to what I'm going to burn. Grrrr.

But all kidding aside, kids, all candidates have shown a good deal of thought and originality in preparing their campaigns. If those who are fortunate enough to be elected put half as much effort into their respective offices as they have in their campaigns, I am sure that next year will be one to look forward to.

If You Think It's Hot, You Haven't Seen Anything Yet

By HAL MINTZ

Did I hear you say it's hot this week? Well, brother, you haven't seen anything yet! Wait till the last week of school—then you'll find out what it's like to really sweat. And not because of the weather either, but for the simple (?) reason that the last week of school is known far and wide as that miserable, torturous, brutal, beastly, fiendishly nightmare of nightmares—TEST WEEK!!!

As you sit in your seat you'll sweat, and you'll squirm, and if a fly lands on your face he'll be drowned in the sweat and tears, and the worms will crawl in, and the worms will play pinocle on your snout (that's a poem, son).

But since we can't avoid this terrible week, we might just as well study for it. (I'm not crazy—honest, I'm not.)

For those who are interested here are the exam schedules:

Tuesday—May 21
Period I—8:30 to 10:30.
Period II—10:30 to 12:30.
Period III—1:30 to 3:30.
Wednesday—May 22:
Period IV—8:30 to 10:30.
Period V—10:30 to 12:30.
Period VI—1:30 to 3:30.
Thursday—May 23:
Period VII—8:30 to 10:30.

About three-fourths of the world's supply of coffee is produced in Brazil.

Commencement Music Outlined By Committee

By JEANNETTE OFSTHUN

Music for the commencement exercises will be in the form of a large four part mixed chorus of selected singers, singing the Choral Procession from "The Song of Man" by Richard Kountz, with a

recitation by Don Michael.

Those selected so far, outside of Girls' Glee are Mary Louise Klug, Don Michael, Don Williams, Harvey Gorcoster, Jerry Johnson, Chuck St. George, Ralph Glazernano, Dick Doro and Mort Algase, according to Miss Ruth Ashcroft.

The Girls' Glee Club will sing the art song "Down in the Glen" by Elinor Remick Warren, written as a three part chorus for women's voices with piano accompaniment. Miss Ashcroft will follow her usual procedure of both playing and directing.

Fire Precaution Topic of Assembly And Fine Address

By DICK CHARLSTON

A demonstration of fire precaution and flood control were the subjects brought out in a talk by Mr. Charles Van Fleet, San Bernardino district forest ranger, and by a moving picture from the Department of Natural Resources, in an assembly given Thursday, May 2, to the Palm Springs High School student body.

Mr. Van Fleet's demonstration dealt with home fire hazards and how they might be avoided. The demonstration consisted of the use of various household utensils to bring out the point. Exhibitions of spontaneous combustion, inflammatory materials that become easily ignited were a part of Mr. Van Fleet's demonstration.

Some of the warnings given by Mr. Van Fleet were: "Don't use a cleaner in a place devoid of air." "Don't throw any lighted article away carelessly." "Always put out a campfire—it serves as a potential fire hazard."

The picture itself, a saga of how a single careless act by anyone of us could cause a disaster, as realistically shown in a vivid manner by the film. The portrayal of a forest fire and forest rangers in action were shown, too. To be obtained from the picture, was the fact that a creation of a fire, destroying a forest, would alter the security offered by a forest as a water shed for the benefit of individuals living in the surrounding territory.

In short, the message carried by the program of the assembly, was one which served to teach those present the proper precautions necessary when making use of our national forests or when using home facilities.

It is claimed that three-fourths of the world's population do not use chairs.

The city of Albuquerque, N. M., was established by the Spaniards in 1706.

REED'S READER

This would be a fine day for me to start poking out "now is the time for all good men, etc.", but that probably wouldn't sell you many photograph records—or would it? On accounts because if you're having a party we could really come to your aid with some discos terrificos. That's Palm Springs paisano for terrific platters.

Ivory Joe Hunter has four new sides that will warm the hearts of the blues and boogie fans. "Seventh Street Boogie" backed by "Reconversion Blues" and "Boogin' in the Basement" with "Don't Leave Me" on the reverse give the old ivory-pounder a chance to swing out but good.

Lionel Hampton and his strictly re-bop quartette have another new one — "Chord-a-re-bop" — with all five members passing the licks around and around 'till it all comes out here.

If you like Carmen Cavallero, come in and listen to his new album, "Serenade." The nimble-fingered wizard does eight Italian folk songs with a rhythm background. The most familiar are "Cibibiribin," "O Sole Mio," "Santa Lucia," and "Oh, Marie," but all of them are enhanced by the Cavallero touch.

Phat will probably be surprised to have someone agree with him—but we both think "Laughing on the Outside" will make the grade—and don't forget to listen to Wee Willie Murrenough's Popular Party program on KCMJ at 11:05 these fine summer nights.

—MORY

GAZOOZIT

Poor little "Gold Dust Twins"—no Senior Gazoozit this week—guess the Senior class play "You Can't Take It With You" in reality did take them.

Here we are again, you lucky people; the Juniors come through again. Friday night seen driving around through the desert were Paul K. and Candy, Ed Ewart, Les and Bonnie Sue, Al Adolph and Jeanette, LoLo with John Beedlehammer and Joanne. We also spotted Carey and Hillery in Hillery's little bloodmobile. Phyllis and Eckert were in the show and Jerry and Shirley were somewhere, too.

DeMolay members and their girls enjoyed a lovely dance at the Woman's Club Saturday night. Juniors and Sophomores at the dance were Ed and Marilyn, Don and Sally, Jay and Jeanette, Bill Lawrence and Betty Ann Lilley, Searles and Julie, Don Miller and Mabel Potter, Jack Penderly.

And those who went elsewhere? Diane and Bob Ellsworth, LoLo and Van, Tom and Erica, Phyllis and Don Hainer, Bob Lianeau, and Doris Stewart.

Over the week-end two of our boys ran into the law. McKinney and Weingartner went to L. A. and received three tickets between them and they weren't show tickets either. Some people have to learn the hard way.

Don't stop reading now; this is the Freshman section. What more could you want? Oh, all right, forget it! The week-end started out with a bang, rather a party, at Betty Wright's. All who were present had a swell time. Jane seemed to be having her last fling before leaving. We hate to see you go, Jane. Dale left poor Elaine out at the B-Bar-H pool Friday night, but alas and alack, she got home. Saturday the Community church C. E. was host to 200 Riverside C. E. members. Some fun up in Palm Canyon, at least for everyone but Glenn Moore, who lost his car keys.

Saturday night seemed comparatively quiet. Joey and Barbara at the show. (In looking back over the preceding words, I forgot to mention that beautiful right to the jaw delivered by Betty Wright. No one has done better, Betty, except Don Croshier. It shocked everyone, especially Doris!)

Sunday, Wills and Metzdorf went swimming at the Oasis, no doubt, and then to a show. (Such quiet activity compared to last week-end, fellows.) Elaine was left at Garnet Sunday afternoon when Dale decided to go to Desert Hot Springs. Some people forget such awkward things!

Sunday night Sandra Veano celebrated her fourteenth birthday! She came right along with the Cinco de Mayo celebrations! Sundaes and all sorts of good food, and then a show. It was really swell!

Well, this brings our week-end to a happy close. After all is said and done, we Freshmen have the most fun of all the classes. All right, all right—so long—see you again next week!

PEO Chapter Enjoys Evening Party at Ranch

For the last meeting of the season Chapter KV, local PEO, entertained their B.I.L.L.s at the lovely home of Mr. and Mrs. C. W. Freeman's Sky Line Date Ranch on Monday.

An evening picnic supper was enjoyed on the lawn. Later a musical program was presented by Georgia Caldwell Freeman, concert violinist, Holly Vissel and Lois Lux. Pantomime duets were presented by Vera Nicholson and Fay Brainard, Holly Vissel and Harry Harper. Recitations by Dr. John Robertson Macartney delighted the party.

Thomas Adams began the production of chewing gum from chicle in 1860 on a total investment, it is said, of \$55.

May We Introduce . .

By JEANNETTE OFSTHUN

Born in Hollywood, California, this great big Senior wolf now howls in the vicinity of Palm Springs. Hollywood got too dull for him. Description of yee Hollywood Wolf: 6 ft., 1 in., 165 lbs., wavy auburn hair, hazel eyes, and delightfully charming freckles. (A la Van Johnson).

Looking into the future, we see him—no we don't either. The poor lad's future is uncertain. Nobody, not even he, knows what he will be. It is quite certain, however, that he won't be sitting around taking it easy, because he likes to be doing something. Something like pushing Klug's car all over the place.

He can't make up his mind which he likes best—steak and potatoes or cream puffs and tootsie rolls. Miss Ashcroft's music really does send him. As for girls, he likes them nice, but he's not really very particular.

I suppose you're wondering who his little Red Riding Hood is. Well, wouldn't we all like to know. There is definitely a very special love interest in his life, but he won't say who she is. No hints or anything.

Although his ambition is uncertain, he would like to travel in his spare time and see the world. His pet peeve is censored.

A very timid and practical-minded person, he would never think of driving his car over the campus or talking back to the teachers, or teasing the girls! Why, you all know that he would never do anything like that! All his friends realize what a quiet and refined boy Bill Oakman really is. Those good qualities are all there, even though they don't always show.

Well, well! This week we have a Brooklyn babe. That's right, she was born in Brooklyn on August 9, 1928. A member of the Senior class, she plans to go to college and study social science. Traveling is her hobby.

She is a blonde (natural, too), 5 ft., 6 in. tall and weighs in at 122 lbs., and has blue eyes. Something tells me she is a Swede, by yumping yiminy. (Which means Jumping Jiminy in English, unintellectuals.)

In moments of leisure she loves to hike, read, and take pictures. She can't stand people who make corny jokes or laugh about her being born in Brooklyn. Tain't funny, see?

Men a few years older than she (out of his school) with a good sense of humor are for her. She is a talkative lass, who enjoys a good laugh. May we present a friendly and cute Senior girl, Irene Tergensen.

What's Cookin'

By ARDIS GREEN

Friday, May 10 — Senior Class Play, Plaza Theatre.
Saturday, May 11 — Track Meet, Ontario. Tennis Meet (Divisional), at Laguna, Palm Springs.

Monday, May 13 — Club Meetings.
Tuesday, May 14 — Club Meetings.

Wednesday, May 15 — Club Meetings.
Thursday, May 16 — Assembly.
Friday, May 17 — Freshman Dance, School Auditorium.

Saturday, May 18 — Tennis District Meet, Hemet.

The original Cabinet officers of the United States were Secretary of State, Secretary of War, Secretary of the Treasury and the Attorney General.

The annual production of borax in the United States is approximately 40 million pounds.

Gymshorts

By BETTY WRIGHT

Last Wednesday the Palm Springs tennis teams played Coachella, and Palm Springs again came home with a fair share of the honors. All our boys won their games but only Diane Heller won for the girls. She won 2-3 sets with a 6-4-6 score. Next week the girls play at Beaumont and the boys at the Racquet Club.

Saturday, May 4, the University of Redlands again invited us to attend a play-day on their campus. We left Palm Springs at 8:00 in the morning and arrived around 9:30 and completed our registration. There followed a general meeting and then we got into our groups for play. Our four events, baseball, volleyball, basketball and tennis were each divided into four groups. The Redlands girls gave each division a name of one of their dormitories. There was Round I and Round II in which the winners and losers played. After cool showers we again assembled and went on a tour of the campus.

With the end of the tour we went to the lunch room for a de-

licious luncheon and a skit. And the crowning part of the day was the wonderful swim in their beautiful pool.

On the way home we stopped in Beaumont for hamburgers (the money we took for our lunches which were given to us was burning holes in our pockets) and returned home around 5:30. We had a wonderful time, thanks to Redlands University for inviting us, to Mrs. Henderson for allowing us to attend, and to the school board for letting us have a bus.

It's a great mystery this week who opened all the lockers in the girls' gym. Mrs. Henderson says that it was "tee-rific".

That's all for this time—see you next week and the last time at that for this year.

The average production of apples in the United States is about 45 million bushels.

Cattle were first brought to the Western hemisphere by Christopher Columbus in 1495.

CANDID CAMERA—Grass roots congressman with his coat off—John Phillips of this district, meets some of his constituents in this unposed picture. The guy with his arm stretched right across the congressman's handshake with Ed Bacon is Wild Bill of The Sun introducing another Villager. (Gayle Studio photo.)

Inflation

By CARL BARKOW

Most of us agree with Congressman John Phillips that the trend toward inflation, if it gets out of hand, will practically wipe out the earnings and savings of America's middle-class and even change our system of government—yet few people seem to heed the threat that is menacing.

The cause of inflation is so simple that nearly every school child knows it: A shortage of nearly all commodities, and billions of surplus dollars in the hands of American people being used to overbid others in an effort to buy the little obtainable. Wages and prices go up and up until money has practically no value. That's inflation!

It seems the only way to halt run-away inflation is to produce more of everything. Then the old law of supply and demand that up to 15 years ago kept this country on an even keel will regulate prices, and we'll all be less fearful and more able to accumulate. Whoever offers such a solution is usually accused of double-crossing someone or another.

If you suggest that labor unions refrain from striking, stay on the job, work longer hours and produce more, you are a labor-hater. Yet, labor would receive more take-home pay and living costs would soon be lower, which would benefit labor. The only sacrifice would be less leisure time, but the welfare of the nation is worth that sacrifice. Under the present program, labor receives little while on strike, living costs go up, savings are wiped out, and labor faces the danger of losing its rights, including the right to strike. That's just exactly what happened in Russia.

If you suggest employers should hold profits to a minimum and do everything within their power to produce more without adequate remuneration, you are a communist. Yet capital faces the same danger that confronts labor. Their interests are identical. High wages, a high standard of living, a plentiful supply of all the things we need to eat and wear and enjoy, mean prosperity for both labor and capital.

If you suggest that manufacturers who have been forced to raise wages be permitted to raise prices sufficiently to absorb the added cost, you have no compassion for the common people who must pay these higher prices. Yet manufacturers will inevitably close their factories if they are not permitted to make a profit. Instead of holding down prices, such a policy will result in further shortages and higher prices.

The peoples of Europe and Asia are preparing for mass production without additional reward, and before long will be in competition with American workers. The things they grow and manufacture will arrive here in vast quantities almost duty-free. If American-made goods are not available in this country the people will buy foreign-made products, especially if the latter can be bought at a lower price. All American workers will suffer from that.

The future of America is at stake. It's just that serious. It means hard work for everyone—manufacturer, laborer, farmer, businessman. If we work harder and longer hours—produce more and save more, it will be only a short time until the present unprecedented demand is supplied and we can begin to reduce hours and increase wages in order to prevent unemployment; and our savings will tide us over any short slump that may occur. We will likewise be in better shape to meet foreign competition.

The writer of this column works ten hours a day six days a week, and is therefore a working man. He favors high wages and a high standard of living for other American workmen. It would be terrible if our failure to face conditions as they actually exist in the world today should

"I Rise to Remark"

By CONGRESSMAN JOHN PHILLIPS

Some time ago, I told of the process a legislative bill goes through between the time it is introduced and the time it is signed by the President. Perhaps you would like to know what happens to an appropriation bill. All appropriation bills must originate in the House of Representatives. The Committee on Appropriations is the largest of all the committees, and has 45 members. It is divided into 12 subcommittees. The Appropriations Committee is the most influential of the committees in the House, although citizens who have special interests naturally consider the committee handling that subject the most important to them. We would probably consider the Committee on Agriculture as the most important for us. An appropriation dies with the end of a fiscal year, so Congress must act upon all appropriation bills before June 30th. An Appropriation Bill is born in the department or agency which will eventually spend the money. This department, bureau or agency makes up an estimate of its requirements. That is sent, not to the Congress, but to the "Bureau of the Budget."

This bureau is under direct control of the President. It reports to him. It is a powerful bureau and it finally writes its own recommendations, not only on the entire Appropriation Bill, but on individual items in the bill. These recommendations go to the House Appropriations Committee. It has been said that the House Appropriations Committee is very sensitive to the recommendations of the Bureau of the Budget, but only in one direction. The committee rarely increases the amounts recommended by the Bureau although it may cut those amounts further.

The subcommittee conducts extensive hearing on the bill. When these are ended, the subcommittee goes into executive session and proceeds with what it calls "marking up the bill." When the subcommittee finishes this work, the bill is reviewed by the entire committee of 45 members, and finally is reported to the floor.

At this point, you would see a great weakness in the method of making laws. Let me take the recent agriculture appropriation bill as an example. That bill came to the floor, accompanied by the committee report, and a transcript of hearings, which made a book, in fine print, of 2,000 pages. Last year it was over 1,600 pages. It is quite possible that a discussion of an appropriation bill may begin on the floor the day after it is reported out of the committee, and therefore the day

bring poverty and suffering to the masses of American people.

If OPA and subsidies should be abolished, we may expect immediate sky-rocketing of prices followed by strikes in every industry that may paralyze the nation, notwithstanding that strikes, wage increases and profiteering during the war years and now are largely the cause of high prices. If OPA and its many price-fixing, wage-fixing and profit-fixing agencies had held the line, as they agreed to do, we wouldn't be in this mess. Of course, people must have more income if they are to pay more for everything they buy.

How to solve the problem no one seems to know. Whatever method is adopted may be the wrong one. When production costs go so high people refuse to buy the products of factories and farms, thrown out of work and will therefore be forced to accept employment at lower wages or suffer the consequences of unemployment. It reminds one of the hawk's cry at a carnival when he spins the wheel of chance, "Round and round she goes, where she'll stop nobody knows."

after these hearings are available to the members generally. Once in a while, I have seen a bill, the need for the passage of which was rather urgent, reported to the floor before the hearings were returned from the printers. It is physically impossible to read all of the hearings in the available time. This is a reason why experience becomes increasingly valuable in all legislative bodies.

General discussion may be for one hour, or for several days. After the discussion, the bill is read paragraph by paragraph, under what we call "the five-minute rule." This means that an amendment may be offered, and the author of the amendment may have five minutes to discuss it. From the House, the bill goes to the Senate. It seems to be a general practice on that side of the Capitol, to add other items to the bill, or to increase the appropriations. One joker said, the reason the Senate was called the "Upper House," was because it always "Upped" the appropriations passed by the "Lower House."

The people at home sometimes think, when the Senate completes its action on an Appropriation bill, that this puts the bill in final form. As a matter of fact, the bill then comes back to the House, to be accepted or rejected, so far as the changes are concerned, and since a bill is rarely accepted in all its details, it goes to "Conference Committee." This is where practically all important bills are put into final form.

The Conference Committee sends the bill back, and both Houses must accept the Conference Report before the bill goes to the President. If either House refuses to accept the Report, it has to go back to the Conference Committee for further work. Many changes actually take place in an Appropriation Bill, as in any other bill, after both Houses have acted upon it in its original form.

Villager Back After Operation

Frank Martineau of Tamarisk road and Sunrise way returned to the Village Tuesday from Los Angeles, where he underwent a serious operation eight days before.

He is under the care of Dr. P. A. Staley here, and it will be two weeks before he will be able to be up and around again.

The Martineau plan to remain at their home here until the end of the school year, when they plan to absent themselves from the Village during the summer months.

Nice easy chair you have, friend. This is real comfort. I'll bet you are one of my nephews whose family life rests on a firm foundation of United States Savings Bonds. Every banker, every merchant, every spiritual leader in this community will tell you that I'm right. The first material possession any right-thinking, right-acting citizen acquires is savings. United States Savings Bonds are safe savings which grow in amount of \$4 for every \$3 invested at the end of ten years.

Increased Stage Service for Palm Springs in Effect

R. R. Dunlap, agent for the Pacific Greyhound here, today confirmed last week's listing of new bus schedules here and added the time of arrival of busses from Los Angeles, eastbound.

The new set-up gives Palm Springs eight westbound busses and nine eastbound.

Stages now leave for Los Angeles at 2:07 a.m., 7:38 a.m., 8:43 a.m., 10:47 a.m., 2:03 p.m., 2:22 p.m., 5:15 p.m., and 8:22 p.m. Stages arrive from Los Angeles at 3:58 a.m., 11:25 a.m., 11:38 a.m., 2:32 p.m., 3:40 p.m., 6:31 p.m., 8:08 p.m., 9:42 p.m., and 1:13 a.m.

For Villagers planning trips back from Los Angeles, departure times for these stages from the Greyhound depot at Sixth and Los Angeles streets, are 12:20 a.m., 7:40 a.m., 8 a.m., 10:45 a.m., 12:01 p.m., 3 p.m., 4 p.m., 6 p.m. and 10 p.m.

David Dunsworth New Manager of Furniture Store

David Dunsworth was appointed this week as the manager of the new Palm Springs Furniture Store.

Coming here more than a year ago with his wife, Juanita, directly from the Wadsworth Veterans' hospital at Leavenworth, Kansas, where he was confined with a respiratory ailment, he has regained his health. When he arrived here, Dunsworth was forced to move about in a wheel chair and only weighed 148 pounds. Before long he became well enough to walk on his own two feet and today weighs more than 200 pounds.

He attributes his recovery to the desert climate. He is the adjutant of the Frontier Post of the Veterans of Foreign Wars here, and belongs to The Owen Coffman Post of The American Legion. He is also a member of Chapter 66 of the Disabled American Veterans here.

As the new manager of the furniture store, he plans to do furniture upholstery, venetian blind manufacturing, custom furniture construction and recovering of automobile interiors. Dunsworth operated his own furniture store in Kansas City for 15 years prior to the failure of his health.

Approval Given 2 Subdivisions

R. C. Inger, San Francisco subdivision, was granted permission by the city council to commence the subdivision of his two tracts, one to be called the Chino Vista and the other the El Mirador.

The latter real estate venture will provide between 40 to 50 homes with lots to sell around \$8,000. The Chino Vista location will have about 24 to 27 home sites.

Protective Group Formed

To enforce building and architectural restrictions, Palm Canyon Mesa Tract property owners have organized a Property Owners Protective association, it was announced this week.

At the first meeting, held last week at the Chamber of Commerce, Robert Peterson was named temporary chairman.

Cooperation of all residents in the area has been asked. The tenant of the remotest log cabin upon the very verge of civilization is within reach of newspapers recording the passing history of the world.—Lewis Cass.

MAY BE VILLAGER—Rudy Vallee, right, shown at a recent Tennis club affair, is reported to have purchased a home in Palm Springs and will be a Villager soon. He is shown with Ted Fio Rito, famous band leader. (Bernard of Hollywood photo.)

AIR-MINDED—Mr. and Mrs. Ted Reed, left and center, talk over aeronautical things with H. M. Myers, chairman of the aviation committee of the Los Angeles Junior Chamber of Commerce during the recent breakfast flight to the Village. (Los Angeles Times photographer.)

Lori Lee Bering to Become Bride Tomorrow Night

One of the most beautiful weddings in Palm Springs' history is scheduled at sundown tomorrow evening, when Lori Lee Bering, daughter of Mr. and Mrs. Lee Wallace Bering becomes the bride of Captain Tom Lyon, Jr., son of Mr. and Mrs. Tom Lyon of Salt Lake City, at the Palm Springs Tennis club.

An altar, set at the end of the bowling green, with appropriate floral decorations, will be the setting for the ceremony.

The Rev. Robert Hogarth, rector of St. Paul's in the Desert, Episcopal church, will officiate.

Her father, former army officer, will give the bride in marriage. Maid of honor will be Miss Betty Premeine, cousin of the bride, and bridesmaids will be Helen Louise Williams and Barbara Miller of the Village, Janet Oswald, Barbara Bacon, Norrie Moore of Los Angeles, and Patricia Morley of Dallas, Texas.

Best man will be Capt. Robert Moffat of Salt Lake City, and ushers will be Addison Hoof, Jr., of the Village, Lt. Gereth McLean, Maj. Tom Scroggins, Lt. John Fulmer of Long Beach, Lt. Robert Bacon, Beverly Hills, Lt. Robert Thais, Los Angeles.

Following the ceremony the couple plan to go to Tucson, Arizona, and then on to Guaymas, Mexico. They will make their home in Long Beach.

More than 250 guests are expected to attend the wedding ceremony including members of both families and high officials of the army.

The Village will be filled with out of town guests for the event and many gay parties are being planned during their stay here.

The city of Caracas, Venezuela, was founded in the year 1567.

SPOTS Before Your Eyes

By BILL RASHALL

There were "spots" before my eyes when I walked into the Dunes Thursday night and it was not until Ruby handed me a sizeable check to be forwarded by the Desert Sun to the emergency food collection committee, that the "spots" vanished. There are many other guys in this town just like Ruby. Wish I knew where they all hang their hats.

Phat Graettinger, my editorial Simon Legree, was appointed chairman in charge of the drive for food and money here in Palm Springs. If I ever played with the thought before that he has overworked me, the whip of his enthusiasm in the Desert Sun's drive for food for overseas will leave me figuratively, black and blue.

STILL FULL UP

Tell me, you old timers, did May in Palm Springs ever exist such as this one? The town is still crowded, and hot sun or not, the little man and his feminine counterpart are still thronging the streets, shops, and "spots." At the Dunes the other night was Mr. and Mrs. Elliott Roosevelt in company with Walter Kirschner of India. Also in the party was Miss Madeline Yeo. Said Elliott: "Just up from India where my wife and I are the guests of Mr. Kirschner. We all came up for the ride and a little fun, then back to India."

IS SHE IRISH! Mrs. Mary Ryan McManus O'Brien (sure, and is she Irish), daughter of Thelma Davis, was in town with husband, William, for a short stay at Colonial House. William, just out of the army, spent 46 months overseas and is the wearer of the silver star, bronze medal and Purple Heart. He intends to enter the Los Angeles Institute of Applied Photography.

Saw City Manager William Alworth walking briskly down Palm Canyon Drive Thursday night. Running along at his side, we learned he was happy. A thorny problem in civic affairs had been solved. Every man apparently has his own fountain from which he draws his happiness. Bill Alworth had obviously taken a big gulp at his own fountain.

AND RUNNING OVER

All of the Chi Chi is closed but the main cocktail lounge seems to overflow onto the sidewalk every time I go by.

Right next door, the Lido is getting its share of patronage. Danny Danzinger, wife and baby, will be boarding a train for a three-month visit back in Cleveland soon. Most of Cleveland has been here this year visiting Danny, it seems.

After entertaining Mr. and Mrs. Louis Roth of Fenway Hall Hotel Cleveland at his home, the couple played host to Danny and his wife at the Dunes. Present at the table was Mrs. Robert Rose, Los Angeles, Abe Weisman, Cleveland, and Mr. and Mrs. Jules DeVorzan. By the way, Jules and his partner, Webb, are entertaining at the Dunes these nights.

TO KANSAS CITY

Victor Cavallera was in to remark that he wished everybody would leave for a vacation. As the main chef in the kitchen of the PAGO PAGO, he claims his work is just as heavy as ever. "But when everybody goes away during the summer," Victor said, "I'm going to make a trip to Kansas City."

Mr. Dee's continues to be a popular "spot." David Lyon, too, is eager to get away. He is planning to make a trip to London this summer.

Jeanne Keller, who worked at the Lido and Mr. Dee's, left a good hunk of her money invested in real estate here. I person-

Villagers Plan Eastern Jaunt

Mr. and Mrs. S. H. (Steve) Brody, children Barbara Sue and Norman, and Morris Burke, Mrs. Brody's father, of 539 Vista de Oro, plan to leave here Tuesday for a five-week trip which will include New York, Boston, Washington, D.C., Niagara Falls, and Florida.

They expect to return here in the fall.

Mother's Day

By C. G. B.

Sunday will be the happiest Mother's Day in the past five years for those mothers whose sons survived the war. More families of children will meet at the homes of their mothers this year than on any Mother's Day since 1941. Thus the more fortunate mothers will be honored, as all mothers should be.

But, we should especially dedicate this day to the mothers whose sons and daughters are not here to honor them; the mothers who endured years of fear and worry because of the uncertainty of the fate of their sons—hope too often shattered with such anguish as only a mother can know who has lost a child. We can at least let these mothers know a nation is grateful for the sacrifices they and their sons have made that other mothers and children may live in security.

The greatest joy that can come to a mother is the happiness and well-being of her children. However, there are millions of mothers today in famine-swept Europe and Asia who do not have that joy. What a dreadful thing it is for a mother who is starving herself in an effort to alleviate the suffering of her children, yet knowing that they probably will not survive. Thank heaven, it is within our power to save most of those mothers and children. The small sacrifices we are asked to make are nothing compared to their suffering; and the knowledge of the relief we can bring to those people is worth a hundred-fold all it costs us. If we are a Christian nation, as we claim to be, we can no more fittingly exemplify it than to pledge ourselves on this Mother's Day to aid these starving mothers and their children.

The nationwide campaign for food for Europe and Asia should start on Mother's Day.

One of the best mothers I know told me once that it is embarrassing to her to hear mothers exalted from the pulpit, radio and press. Rather would she prefer to hear mothers admonished as to their responsibilities. She feels that a great deal of the wickedness in the world is due to failure of too many mothers. The only thing wrong with her reasoning is that on Mother's Day the bad mothers are seldom honored by their bad offspring; and only those sons and daughters who appreciate good mothers observe this day to pay tribute to their mothers.

Unless it is Christianity itself, there has never been a greater force to actuate men and women to good deeds and clean lives than the influence of a good mother. Many a man can remember instances in his life when he was tempted to do things that were wrong; and only the thought, "What would this do to Mother?" has kept him on the right course.

It is an incentive for all of us to pay tribute to good mothers.

The state of Texas leads in the production of blackberries.

allly know she has purchased three parcels of land. The last one was at Rancho Mirage.

Lovely Jean Arthur and two handsome escorts were seen at the Dunes. She has been staying at the Racquet Club for the past week.

The Race for Attorney General

By ETHEL GILLET WHITEHORN

Seven candidates are running for the office of California's Attorney General. A close scrutiny of the slate discloses that only three of the seven have any potential strength. Those three are Fred Howser, district attorney of Los Angeles; Harrison Call, member of the state assembly from Redwood City; and Edmund G. Brown, district attorney of San Francisco.

It is interesting to make political predictions, even though they may boomerang on the predictor. Several weeks ago I predicted that Governor Warren, if not elected in the primaries, would win in November by a landslide such as no governor has received since California was admitted to the Union in 1850. According to reports received from every section of this state, that prediction remains safe and sound.

SECOND PREDICTION

Now, I am making a second prediction, which is that Fred Howser and Edmund Brown will be standing in the top brackets after the votes are counted on June 4. I further predict that in the final race, Fred Howser will win by 8 lengths just as Assault won the Kentucky Derby last week.

A predictor should always advance reasons for her (or his) divinations. The following reasons aren't exclusively mine. They represent public opinion in a nut shell.

1. Fred Howser will poll a tremendous vote not only in the southern counties, but also in the central and northern counties. Although a few disgruntled critics have never ceased to snipe at him since he first took office, it is a well known fact that Mr. and Mrs. John Q. Citizen admire and respect him intensely. Mr. Howser has been termed an "unimpressive district attorney." His many friends will accept that term as a compliment to him, since, during his administration,

not one breath of scandal has been directed toward him or the office, itself.

SUBSTANTIAL BACKING

Mr. Howser's critics admit, "in fairness to him," that he has the backing of many substantial and respected leaders both in the Republican party and legal profession. The backing they refer to is indeed substantial, but it goes beyond the Republican party and legal profession. It is lodged in the Democratic party; in the rank and file of labor; in veterans' organizations; business, large and small; among the farmers, and to a very large degree in women's organizations. This backing isn't localized in the city and county of Los Angeles. It is state-wide. That is why I predict that Mr. Howser will poll a tremendous vote in all of California.

2. Three weeks ago, Mr. Howser campaigned in Harrison Call's and Edmund Brown's northern camp. His visit to San Francisco—the city that knows how—won for him the endorsements of the famed Civic League and of the San Francisco Chronicle.

NOT WELL KNOWN

Mr. Howser's southern California critics favor Mr. Call in the coming race on June 4. They are overlooking the fact, intentionally or unintentionally, that the voters of California know very little about Mr. Call. They should explain why he, who lives two hops and a skip from San Francisco, failed to win the support of the Chronicle and Civic League.

Edmund Brown is the CIO Political Action Committee's candidate, whose indorsed candidates are taking a terrific drubbing in primary elections throughout the nation. The swiftest method I know of for a candidate to commit political suicide is to tie himself to Sidney Hillman's suspenders.

3. Mr. Howser's fight will be clean and dignified. He knows no

GONE FOR SUMMER—Mr. and Mrs. Edward R. Bacon, prominent Villagers, who plan to spend the summer months in San Francisco, their home, and Hawaii. (Desert Sun photo.)

Edward R. Bacons Leave Village to Spend Summer in San Francisco, Hawaii

Among the many winter residents who will be missed throughout the summer months here are Mr. and Mrs. Edward R. Bacon, who this month closed their palatial home here and returned to their home in San Francisco.

Bacon, who is the owner of the Edward R. Bacon Company of Hawaii, plans to spend the next four or five months in the islands at his headquarters.

While here he took an interest in the Palm Springs Community Hospital and, through his efforts, the Village now has a temporary hospital operating until a permanent building is erected. Ward "B", located on the Torney General Hospital grounds which Bacon obtained from the government included all of the most modern equipment, has been in full operation for more than three months. It is no longer necessary to drive a painfully injured person for miles to hospitals in India and Riverside for treatment.

The Bacon home here has been the scene of many gay social events.

other way to fight. That is why he has so many friends. As California's attorney general he will restore the dignity of that office. That is why the voters want him to be elected.

MORE ABOUT . . .

Food Drive . . .

initial story in the Desert Sun which launched the campaign here, literally hundreds of cans of food have been piled up at the Desert Sun office. The same is true at the Chamber of Commerce and the Post Office.

WHERE CHECKS GO

Those who wish to give checks are asked to make them out to the "Emergency Food Collection" and send them or bring them to The Sun. Cash will also be accepted, deposited at the Bank of America and when the drive ends, a check for the amount will be forwarded to the Emergency Food Collection, 100 Maiden Lane, New York City.

Columbia Broadcasting System and the Mutual System plan to join networks today in a program entitled, "Command Assembly". This event will be heard through the facilities of KCMJ, and will urge people throughout the country to conserve on food. The program is under the auspices of the National Famine Emergency Committee and the Red Cross. Twenty-two thousand bulletins have been sent to schools officers and teachers throughout the country asking their cooperation in distributing 22,500,000 "check lists and reminders of home practices" to save food.

CONSERVE FOOD!

At the request of Clinton Jones, Dr. E. E. Oretel, principal of the Palm Springs High School, assembled all of the students in the school auditorium to listen to this combined networks program between the hours of 11 to 11:30 a.m., as released through KCMJ. The program included a dramatization entitled "Leftover" with Helen Hayes and her daughter, Mary MacArthur, as the featured artists. Another program from Hollywood with Roddy McDowell and talks by Basil O'Connor and John Studebaker is also scheduled.

A Newspaperman Makes a Protest

By CARL BARKOW

Newspaper people of Southern California who for 20 years have looked forward each spring to the annual newspaper dinner at Hemet during the Ramona pageant, were disappointed the night of April 27 when they arrived there and discovered that this year's invitation merely entitled them to buy a \$1.50 ticket to a barbecue, which was open to anyone who had the \$1.50. They didn't have an opportunity to sit together, consequently were unable to find each other in the huge crowd that attended. Newspaper folk have few opportunities to meet together, to swap yarns, rib each other or talk politics. In years gone by, the Hemet dinner provided such an opportunity, and therefore attracted larger crowds of editors and publishers than other California newspaper functions. If they were in Hemet this year, we were unable to find them. Undoubtedly this was as disappointing to Editor Homer King of the Hemet News as it was to other editors, but the matter was probably taken out of his hands by efficiency experts in charge of the pageant and Homer could do nothing about it. Southern California newspapers went overboard again this year, as they always have done, to give publicity to the Ramona pageant, but they may not feel quite so generous in the future, inasmuch as the pageant committee appears to favor the Hollywood crowd in preference to the old friends who publicized the pageant when it sorely needed support.

Local DAV Post Hears Report of National Survey

Palm Springs may eventually be the home of a Veterans' hospital.

Dr. James E. Potter, commander of the Disabled American War Veterans, Chapter 66, of Palm Springs, announced at a meeting of that organization Wednesday night that he has been requested to conduct a survey of veterans in this area who suffer from respiratory ailments. The request for the survey was contained in a personal letter received by the doctor-commander from the Veterans Administration, seeking justification for a hospital here.

In a letter written to the V. A., Doctor Potter had vigorously outlined the need of such a hospital here. He cited the number of cases he has examined, the number of veterans who come to Palm Springs seeking health and are unable to find reasonably priced rentals; of the long journey they have to take in some cases when taken sick here to the congested Veterans hospitals of Sawtelle and San Fernando.

TO START SURVEY

Although the letter is only the beginning of a three or four months investigation of Dr. Potter's claim, nevertheless, the Veterans Administration's reply to the commander of the local DAV showed interest enough to ask that a survey be made. This, according to Dr. Potter and members of the local service organization, will begin at once.

Other service organizations such as the American Legion and the Veterans of Foreign Wars, as well as civic and fraternal organizations will be asked to lend their support in the search for veterans' suffering from respiratory diseases and will include the cities of Indio, Banning, 29 Palms, Desert Center and other communities.

RENEW SEARCH

The meeting of the DAV's on Wednesday night featured a desire on the part of that organization to contact all ex-servicemen and women who are in need of hospitalization or out-patient treatment of service-connected disabilities. It was asked that those who feel that disabilities which has heretofore not been recognized as service-connected, be brought to the attention of the local DAV service officer for further investigation.

Along this line, Dr. Potter pointed out that any Veteran who is sick or needs medical treatment can, under the latest regulations of the Veterans Administration, seek out their own doctor for consultation.

An investigation of Veteran's low priced rentals in Palm Springs was also asked and will commence sometime this week. The status of those who now occupy houses which should go as first priority to World War II veterans may be asked.

Members for the local DAV are being sought. Those qualified are ex-soldiers who suffer any disability during the war, retired officers, former prisoners of war, wearers of the Purple Heart, and veterans who are drawing disability payments.

Local Peace Group Urges President to Adopt Formula

Harry S. Truman, president of the United States, will be in receipt of a letter addressed to him by the Palm Springs Group for World Peace in which that organization pleads with the chief executive to consider Emory Reves' book entitled "The Anatomy of Peace". It was asked that the president consider Reves' formula for world peace.

In part the letter read: "We urge that you, as Chief Executive of our Government, direct negotiations to be undertaken with the other principal world powers, with a view to exploring officially the feasibility of a true World Government, equipped with the authority and the means to enforce Peace amongst its constituent and subordinate units."

It was signed by C. W. MacArthur, secretary.

Portrait of the Week

By BERNARD of Hollywood

Betty Trowbridge . . . who decided to forget work in Hollywood for a while in order to enjoy a peaceful rest at the desert. As you might easily guess . . . Betty is in the movies . . . being under contract to Howard Hawks. She also does modeling . . . which if you will look above should be quite obvious. On men . . . intelligence and good manners count . . . and either Tyrone Power or Joseph Cotton would easily fill the bill she claims. As we said . . . Betty has lived up to her goal and has been peacefully resting down here . . . that is . . . if you call dancing at the Raquet Club every night . . . swimming and riding every day . . . and somehow she couldn't forget work . . . as even down here she has been in demand to pose for pictures, etc. Oh, well . . . yawn's Betty . . . she thinks she will go to Hollywood for a bit of a rest.

Missing Pair Not Missing, Just Lost, But Find Way Back

All's well that ends well.

Alarm Wednesday at dusk for the safety of Shirley and Howard Brown, who took off at 4 a.m. on a horseback ride into the mountains, was found unharmed late that night when the pair returned safely.

The two started at dawn on a ride from the Rancho stables into the mountains and when a check with their intended destination revealed they had not arrived there, Wally Waring of the stables, reported to police, expressing concern over their safety.

But before a searching party could be organized, the missing riders came back.

They had lost their way but managed to get back on the right track without outside aid.

Local Airbase To Be Abandoned by Army Except for Small Maintenance Crew, by July 15, Is Announcement

Abandonment of the local air base by the army with the exception of a small maintenance crew will take place July 15, according to an announcement by Lt. Col. Charles McGarrigle, commanding officer.

Military personnel now stationed there have or are in the process of being transferred to other stations and two-thirds of the 130 civilian workers are being discharged.

All portable equipment, such as tools for the repair of aircraft, radio equipment in the control tower, motor vehicles beyond the need of the crew scheduled to remain, will be packed and crated for shipment to other Air Transport Command installations.

The field, however, will be left in such a condition, that in the event the army would again want to operate it, it will be able to do so merely with the return of necessary personnel and equipment.

Recently the army renewed its lease with the city for one year on the land now occupied by the military installation. This lease, it was pointed out, can be cancelled on proper notice by the government.

At a meeting of the city council Wednesday afternoon William E. Alworth, city manager, officially reported on the future status of the army airfield. Following his report, Alworth said the city would immediately prepare an application for the acquisition of the buildings and what equipment it will be possible to obtain for the maintenance of the airport.

It is expected that Alworth and Councilman Culver Nichols on their proposed trip to Washington in connection with acquiring Torney General Hospital, may look further into the acquisition of the airfield.

Famous Choir To Be Heard at Catholic Church

Bob Mitchell's "Boys' Choir", nationally famous, is scheduled to sing at Our Lady of Solitude Catholic church, May 19, according to Father Francis L. McGann, pastor of the church.

Mitchell and Father McGann met when both were in the service and stationed at Camp Parks near San Francisco during the war.

The choir is well-known for the quality of its music and has been featured on nation-wide radio networks over the National Broadcasting System. Mitchell is himself well-known in California for his work on the radio and in motion pictures.

Senator Dilworth Addresses Lions on Veterans Affairs

Palm Springs Lions club met yesterday for the last time this season at the Desert Inn, which closes next week, in an interesting meeting with State Senator Nelson Dilworth as the chief speaker.

Senator Dilworth spoke on veterans affairs. Florian Boyd was chairman for the day.

It was the first regular meeting at which the new president, Harold J. Hicks, presided.

The Palm Room of the Inn was filled to overflowing and many Lions and guests were seated in adjoining rooms. The final meeting at the Inn was one of the largest of a season which set records from the start for attendance.

MORE ABOUT . . .

Legion Votes . . .

back from the abyss of self-destruction onto the road to useful living is a sightless person. In order to obtain the money for the construction of a building to be located at Shoshone, on the edge of Death Valley, the blinded veteran Kenny urged that the Legion Post here purchase a canary which in turn would be donated to some hospital by the purchaser.

Ray Hiller acquainted those present with the possibility of veteran low cost housing when the Army Air base is closed.

Candidates, as selected by the nominating committee for officers from that of commander on down will be voted upon at the next meeting of the Coffman Post.

Names of 98,000 John Smiths are on file with the Veterans Administration in Washington, 13,000 having no middle initial. Service serial numbers keep things straight for the V. A.

NOTICE OF ELECTION
For

One member of the Governing Board of The Desert School District.

NOTICE is hereby given to the Electors of The Desert School District of Riverside County, California, that the Annual Election of members of the Governing Board of The Desert School District, will be held at the Frances S. Stevens Elementary School in said elementary school district on the third Friday in May, May 17, 1946.

It will be necessary to elect one member for three years. The polls will be open between the hours of 1:00 p.m. and 6:00 p.m.

(Signed) MRS. R. F. OUTCAULT,
Clerk, Desert School District, Board of Trustees.
Sun, April 26-May 3 and 10.

Bill Marvin Plans to Open Sporting Goods Store Soon

Bill Marvin, out of the service after many years, plans to open a sporting goods store at 400 N. Palm Canyon drive during the summer in preparation for a greatly expanded stock and activity next season.

He plans to carry a complete line of items to satisfy the needs of Villagers and visitors, golf, tennis, badminton, baseball and all organized sports for clubs and schools. He also plans a service department for sporting goods such as re-stringing racquets and the like.

Marvin went into the service in 1943 and spent some time in the south Pacific area. He was out of the service for two months.

He has been a resident of Palm Springs for 26 years and was engaged in a similar business when he went into the Army Air Corps.

His wife, Roma Marvin, has been connected with the Knobby Knit shop here for the past ten years.

Softball League To Start Play at Field Club May 16

Softball play will start next Thursday, at the Field Club when an inter-city league swings into action.

Three teams from the Village, one from Banning and two from Beaumont, will participate in the league.

Thursday's opening game will not figure in the league standing, being an All-Star game.

Local teams in the loop will be from the Boys Club, the Rotary club and the Lions Club.

Games will be played each Tuesday and Thursday night.

A meeting of managers is scheduled for Wednesday night here, to elect a baseball commissioner for the league.

Desert Retreat Sale Reported

The Desert Retreat, which housed government employees at Torney General Hospital during the war, has been sold to Harold Hirsch, Chicago capitalist, it was announced this week. The sale was from Harold Rubin and associates and the reported consideration was \$200,000.

Walter N. Marks and Emil Karlen of Beverly Hills represented both parties in the transaction.

Must Register At Indio Office

Village youths just turning 18 years of age, will have to register for the draft at the Indio draft office, it was reported this week.

The local registration office has been closed.

Woodburys Leave To Spend Summer In Vermont

Mr. and Mrs. Glenn Woodbury, daughter Lois and Son Kenneth, left yesterday by auto for a trip back to Bethel, Vermont, their home, where they will spend the summer. They will be back in the fall. They plan to make a leisurely trip east with many stop-overs on their itinerary.

Miss Lois Woodbury is a member of the Desert Sun office staff and Kenneth is a salesman at Fred Fulton's Men's Shop.

Value of Special Census is Apparent Here This Month

The recent special census in Palm Springs already is bringing results in increased revenue to the city, it was revealed this week when State Controller Thomas E. Kuchel announced the apportionment of motor vehicle license fee (in lieu) taxes to counties and cities of the state. The total amount distributed was \$4,699,602 and covered the nine-month period ending March 31, 1946.

Whereas, last year, Palm Springs' allocation was based on the 1940 census figure of 3434, this year's apportionment was based on the new census total, 7,2113. The amount was \$2,752.-24.

Boy Scouts To Hold Court of Honor Tuesday

Parents and friends of Boy Scouts are invited to attend a Court of Honor to be held next Tuesday evening, at Frances S. Stevens school.

Desert Circus Report
Given at Luncheon
By Chairman Bennett

Earl Coffman Post of the American Legion here, first beneficiary of the Desert Circus association, may profit to the extent of \$12,501.96, total net receipts of the 10th Annual Circus. This was revealed in a report by Frank Bennett, chairman of the Circus Committee at a luncheon held at the Desert Inn last Monday.

However, this sum may be subjected to further reductions because of the uncertainty of Federal taxes and other bills and will not be turned over to the American Legion until the next annual meeting of the directors of the Circus Association to be held the first Monday in November.

PRAISES ASSISTANTS

Bennett, in reciting the work accomplished by the various committee heads which operated under him, declared that the Circus would not have been a success without their untiring assistance. A proposal by Florian Boyd that he be given a gift was refused by both Bennett and his wife, Melba.

"If I were to accept such a gift," declared Bennett, "every committee chairman would likewise have to be given one. Without their help the 10th Annual Circus would not have been the success it was."

OVATION FOR SIMON

On reporting the amount of money the Circus association received from the sale of programs and advertising, Lloyd Simon who was in charge of this department, received a tremendous ovation from the gathered directors. The report indicated that Simon was instrumental in selling \$4,530 in advertising space in the Circus program and selling the programs for a total income of \$5,065.

Bennett also announced that the Big Top Ball was the most successful of all previous such events. The Kangaroo Court held in conjunction with other circus events was also a financial success. The Palm Springs Tennis Club Buffet luncheon, the first of its kind held during a circus week, was exceptionally good.

OUTSTANDING EVENT

Cecil Isenagel and Arthur Bailey, judging from the acclaim they received both from Bennett and the assembled directors, performed something short of a miracle

Muriel Fulton
Acquires Gibbs
Banning Ranch

Muriel Fulton, president of the Palm Springs Realty Board, has purchased the Banning Heights Ranch, one of the show places of Banning, from Commander E. E. Gibbs, former prominent Palm Springs resident.

The transaction, which became known Thursday, involved a sum in excess of \$40,000, it is reported. Miss Fulton plans to use the Banning Heights ranch as her summer residence. She also intends to develop the place as a guest ranch. The place is situated at an elevation of over 3,000 feet and commands a grand view of the San Jacinto and San Geronimo mountains.

Vote Expenses
For Trip East

City council in session Wednesday afternoon, voted to allow William E. Alworth, city manager and Councilman Culver Nichols a maximum of \$1200 for expenses on their trip to Washington, D. C. to seek acquisition of the surplus Torney General Hospital property and to survey the possible acquisition of the Army air field here.

Most of this money, it was pointed out, will be consumed in railroad fares.

That part of the United States known as Florida became a part of the nation in 1819, when it was purchased from Spain for the sum of 5 million dollars.

The area of Central park in New York is 840 acres.

MORE ABOUT . . .

Personal Urge . . .

from this country. Certain hard, fast rules had to be invoked. There are many in this country with dear ones in war-shocked Europe. Miss Louis, here in Palm Springs, is one of these people. Four pounds by first class mail. A pitiful amount—but there was ship space to consider—and there were so many who needed food over there.

Miss Louis hurriedly packed her bundle of food for Mary. She has been doing it every opportunity since then, but the packages going to Alsace are no longer addressed to Mary Marguerite.

ARRIVE TOO LATE

By the time the first package arrived it was just too late!

Miss Louis's sister didn't have the strength to eat any more. That's why tears streaked down the face of Miss Louis. She was thinking of her dear sister, as she brought in her donations.

It was extremely hard, believe this, to get Miss Louis to tell her story. It's her own sacred grief. There is no reason for any one person to pry into this, her personal bereavement.

Nevertheless, after considerable persuasion, in hope that her story would stir the heart of some person here in Palm Springs, she consented to give the story to the Desert Sun which launched this food campaign ten days ago.

RESPONSE IS GOOD

Without any knowledge that this appeal to the benevolent heart of Palm Springs by the Desert Sun would be followed by a similar campaign on Mother's Day, May 12, the response so far has been good, but is still NOT

in the disposition of the Packard automobile. This was perhaps the most outstanding financial individual contribution of the entire Circus Week.

Letha Carlson, secretary and bookkeeper for the Circus association was paid a fine tribute for the indefatigable work she has performed in keeping the books of the association and other duties.

TO BUY MOVIES

On a motion of Frank Bogert the directors voted to spend \$200 out of the Circus Association's revolving fund for the purchase of colored motion pictures taken of the various circus events. Earl Strebe, owner of the Palm Springs and Plaza theatres where the pictures will be shown, agreed to pay an additional \$200 for the film. It was reported that the sum wanted for approximately 1600 feet of this film is \$600. The motion picture will be previewed next Thursday and Harry Harper, Frank Bogert and Earl Strebe have been appointed as a committee to negotiate for the film. Robert Ransom presented both Mr. and Mrs. Frank Bennett with two silver plates each with an individual inscription. The plate given Bennett read: "To the first president of the Desert Circus Association. From its organizer, Robert Ransom." On Melba Bennett's plate the inscription was similar except that it was tendered "To the Queen of the Vanities from the organizer of the Desert Circus Association."

GOOD ENOUGH.

Every food deposit box at the three collection depots shows a considerable amount of canned goods donated; but the boxes are not filled yet.

THEY SHOULD BE FILLED every day during the course of the campaign.

Come on Palm Springs! Let's do our share!

Remember, one can of food today will, without doubt, SAVE A

LIFE TOMORROW somewhere overseas.

When you buy a can of beans—buy an extra one. Solid foods are wanted. Chocolate, not candy, but the cooking kind is wanted. Cornmeal in boxes, corn, tomatoes, and most of all canned milk for the little ones who are faced with the grim spectre of death by starvation in a world in which no happiness has yet been shown to them.

Drop a can of food at the Desert Sun office. If that depot is too far, there is one at the Chamber of Commerce, and also at the Postoffice.

Thanks, Miss Louis, for the story you gave the Desert Sun. The best writer in the world will fail horribly in translating into words the appeal your story has, the impetus it should give to those of us who never gave a thought to the hungry, overseas.

ON SALE SOON—Soldiers in a veterans' hospital making the poppies which will be sold here and throughout the nation on May 25.

Owen Coffman Unit of Legion Auxiliary Prepares for Observance of Poppy Day, National Event Scheduled for May 25

Poppy Day will be observed in Palm Springs and throughout the United States on Saturday, May 25, Mrs. C. V. Knupp, president of Owen Coffman Unit of the American Legion Auxiliary, has announced.

Memorial poppies to be worn in honor of the dead of both World Wars will be distributed on the streets throughout the day by volunteer workers from the Auxiliary assisted by local high school girls. Contributions received in exchange for the flowers will be used in relief and rehabilitation work for disabled veterans, their families and the families of the dead.

WORK UNDER WAY

Extensive preparations for Poppy Day are being made by the Legion Auxiliary Unit under the direction of Mrs. Jay Morrison, poppy chairman. The volunteer workers are being organized into teams and assigned to locations in the Village, Cathedral City, Desert Hot Springs and other outlying areas also will be covered to give everyone an opportunity to pay tribute to America's heroes by wearing a mem-

orial flower. The poppies have been received from the West Los Angeles Veterans hospital where they were made by disabled veterans of both wars, working under the direction of the California Department of the American Legion Auxiliary. They are hand-made crepe paper replicas of the European wild poppy which bloomed on the battlefields of France and Belgium in both wars and which has become a world-wide symbol of remembrance of America's battle victims.

SALES GO UP

Poppies will be more generally worn this year than ever before, Mrs. Morrison predicted.

"With peace restored and the men coming home," she said, "everyone will want to pay tribute to those who can never come back to us by wearing a poppy in their honor on Poppy Day."

At the meeting of Owen Coffman Unit to be held Wednesday evening, May 15, at the Desert Inn fiesta house, a poppy program will be presented. Taking part will be Mrs. Ted Griffith, who was a personal friend of Colonel John McCrae, author of the immortal poem, "In Flanders Fields"; Fay M. Bragg, who served two and one-half years overseas with the 360th U. S. Army Engineers. While in Brittany, Normandy, St. Lo, the Rhone Valley and other sections of France, the veteran of both world wars was a keen observer of the one touch of nature's beauty—the poppies—growing amid the desolation of the battlefronts. Mrs. Harold Lienau will give "The Story of the American Legion Auxiliary Poppy".

PLAN SOCIAL HOUR

Special guests at the meeting will be the teachers who supervised the making of poppy posters by elementary school students; and a group of high school girls who will assist in the sale of the poppies May 25.

A social hour will follow the program, and all who wish may help prepare the paper poppies for the sale by opening the petals and placing the Auxiliary tags on each flower.

Election of Unit officers for the coming year will take place during the brief business session.

John R. Thompson Joins Navy This Week

John Rudolph Thompson of Palm Springs, was one of 22 county youths who joined the U. S. Navy during April, according to word from Riverside this week.

Verlin T. Peterson, recruiter in charge, said that youths from all parts of the country were represented in the list.

Be Smart... Relax at the Movies

Annual Fish Fry Slated for May 25 On Mashie Course

Annual fish fry given by the Palm Springs Fish and Game Conservation association will be held on the mashie course of the Desert Inn, May 25, at 7:30 p.m. This was the day and hour decided upon by members of the association who held their regular meeting at the Fire Hall Monday.

At the same time the association voted to go on record in favor of postponing the deer hunting season from the period of September 16 to Oct. 15 to a new season including October 1 to 31. This was recommended by Ray Knight, president of the San Geronimo Fish and Game Club of Banning. He pointed out there would be less chance of fire during the dry spell of the earlier period than there would be later. The speaker also recommended that the limit be reduced from two bucks per hunter to one.

The fish fry will be limited to members and their families only, with tickets to the affair selling at \$1.00 per person. All those who plan to attend are asked to bring their own knives, forks, spoons and plates. Members who plan to attend are asked to contact Harry H. Mann, secretary or obtain tickets on the grounds.

Local Artist's Painting Hangs In L.A. Exhibit

Included in the Annual May Show of the Women Painters of the West, in the lecture room of the Los Angeles public library, hangs an oil painting by Margaret Moore of Rancho Mirage, entitled "The Oscar Tybiring."

This Norwegian ketch has an interesting history. Robert K. Robertsen, mariner, navigator, and shipwright with two companions left Norway in this ketch in the fall of 1938 and in April 1939 sailed into Los Angeles harbor. A story which appeared in a Los Angeles paper sent Miss Ruth Lewis, a magazine writer to the harbor for an interview. She met Robertsen and the following September they were married.

Now, with Robertsen's younger brother and two friends aboard as crew, three Scottie dogs and a cat, they are off on a world cruise with Norway as the first major goal. This world-girdling trip, Mrs. Robertsen plans, will be paid for from her writings.

Call "Tanner" Phone 4444 For U-Drive Cars.

Issue Appeal to OPA To Increase Soft Drink Quota

An appeal has been sent to the OPA in Washington to increase the quota of soft drinks to Palm Springs by merchants of the city.

The appeal, sponsored by the local Lions Club, sets forth that although the population here has more than doubled, the quota of soft drinks shipped here has declined to 70 per cent of the 1941 allotment.

The letter to the OPA called attention to summer conditions here and added "to avoid forcing the returning service men and workers here to beer or hard liquor for their summer beverages,

\$1000 Damage Done in Blaze

Fire of undetermined origin caused damage estimated at \$1,000 at the California Electric Power company last week. The fire was discovered in the midst of a stock of heaters which were piled against the electric company's building.

A door near the blaze was badly scorched before the flames could be extinguished.

we should furnish them with soft drinks... during the heat of the summer."

Copies of the appeal went to Congressman John Phillips, Senators Sheridan Downey and William Knowland.

In CivviesHerbert Foster Now
Out of U. S. Navy

William Arthur Foster, SM 3/c, son of Mrs. Etta Foster of the Village, has been discharged from the U. S. Navy after more than two years in uniform.

A graduate of Palm Springs high, he enlisted in the Navy on January 28, 1944, at Los Angeles and for the past year and a half has been stationed at Pearl Harbor. While there, he attended University of Hawaii.

He plans to continue his college education. He received his discharge papers at the Naval Separation center at Terminal Island, San Pedro.

**2 Villagers Buy
Business Houses
At Big Bear Lake**

Tom Luke and K. E. Kurtz, both of Palm Springs and well known here, have purchased the property of another Villager, at Big Bear Lake, according to information reaching here this week.

They bought the catering business of Barney Ostrow for a reported consideration of \$125,000. The establishment consists of a restaurant, cocktail lounge and liquor store. Kurtz will operate the lounge and restaurant while Luke will operate the liquor store.

TOO MUCH ACTIVITY
Ostrow said that he made the sale because he did not have the time to operate both the establishment and his hotel and cabin properties. The latter were not involved in the sale.

Luke has been a resident of the Village for the past ten years and still plans to spend his winters here and his summers at Big Bear. Up to two years ago he was owner of the Zanzibar cafe on Andreas road here.

Kurtz came to the Village 18 months ago and bought an interest in the Zanzibar. Like Luke, he has had a summer home in Big Bear for some time. Kurtz plans to live in the mountains the year around.

NO PARTNERSHIP
The sale is unique in that it involves no partnership. Luke and Kurtz will operate independently in the venture.

Barney Ostrow has been in the San Bernardino mountain area for 22 years. He arrived there in 1924 and started with a hot-dog stand. This grew up into the restaurant, cocktail lounge, liquor store and a hotel and string of cabins. He plans to devote all of his time from now on to his hotel business.

**Kin of Villager
Wins Pulitzer
Cartoon Prize**

One of the most interested persons in Palm Springs Tuesday morning as he looked at the front page of the Los Angeles Times was Francis E. Russell of 251 Ocotillo.

The story and picture that held his attention was that about Bruce Russell, Times cartoonist. Bruce Russell is his nephew.

Nephew Bruce, the story set forth, had just been awarded the Pulitzer prize for the best cartoon of the year. It was the one depicting the rift between the U. S. and Russia and was titled "Time to Bridge That Gulch."

Russell has been cartoonist on the Times editorial page for the past 12 years.

His prize-winning cartoon showed the American Eagle facing the Russian Bear across a chasm representing "irresponsible statements" and "deepening suspicion."

**This Desert
3,000 ft. up**

We love our desert, too. It's the same as yours, only a little over 30 minutes away and 3,000 feet up. Cooler daytimes and a blanket at night.

Highland Springs Guest Ranch, nestled in pine and oak-clad hills and canyons, is your next ideal move. Any time after Easter—we are full now. A real dude ranch—horses, pool, purebred Guernsey dairy, thousands of chickens, orchards, olive groves, vineyards. Wonderful meals, a good social life, all sports, and yet with all this as restful as you want to be.

The address? Beaumont, P. O. Box 755. The telephone? Beaumont 661. You too will love our summer desert-mountain spot at Highland Springs Guest Ranch. adv.

**Dr. Sutherland
Newest Member
Of Desert Clinic**

Dr. Ross Sutherland, well-known Los Angeles orthopedic surgeon and surgical director for the Tichenor Institute for the Handicapped, in Long Beach, has joined the staff of the Desert Clinic here, it was announced Tuesday. He plans to live here all summer making his home at the Dr. H. M. F. Behneman residence.

He will fly his own ship to Las Vegas once a week for his operative clinic there, and also spend one day a week in Los Angeles. He will be available for work here on the other days all summer. Dr. Hugh Stephens, a recent arrival from Santa Barbara, will handle the medical work of the Desert Clinic during the summer until it opens September 15 in its new quarters at 764-766 North Palm Canyon drive.

The complete staff of the clinic to open on September 15 will consist of:

H. M. F. Behneman, M. D., internal medicine.

C. H. Woodmansee, M. D., general medicine.

Meredith Beaver, M. D., surgery.

Gordon Witter, M. D., eye, ear, nose and throat.

Harold Morris, M. D., radiology.

Ross Sutherland, M. D., and M. John Rowe, Jr., M. D., traumatic and orthopedic surgery.

Burn down your cities and leave your farms, and your cities will spring up again as if by magic; but destroy our farms and the grass will grow in the streets of every city in the country.—William Jennings Bryan.

BANK OF AMERICA

COFF & COMPANY

Bank of America
NATIONAL TRUST AND SAVINGS ASSOCIATION

MEMBER FEDERAL DEPOSIT INSURANCE CORPORATION • MEMBER FEDERAL RESERVE SYSTEM

The Brnk of America branch in your town is a unit of one of the largest banks in the world. Yet, despite its great size and strength, it is in every real sense a home town bank, supervised and staffed by local citizens, many of whom share ownership of the bank with thousands of Californians. These men and women are close to the heart of the community and welcome you to the bank as a neighbor and friend.

This intensely local spirit is supplemented by a complete metropolitan service possible only to a bank of ample facilities. Whether you're building a home or an entire community, the local Bank of America branch is ready to provide sound financial advice and assistance.

Small Pox on The Wane, Report

The small pox scare, which last month caused thousands to rush for vaccination in southern California, has definitely subsided, according to health officials, following receipt of word from the state health department.

There have been no cases of small pox in the county for the past five years but when word of an outbreak in the north arrived, thousands availed themselves of the opportunity for vaccination in the county.

According to health officials, the epidemic was checked well before it reached the southland.

ON LOCATION WITH JACK BREED in Northern Arizona

Back on the main road through Monument Valley, we left the East Gateway and headed on east toward the remote and virtually unexplored Tsay-begay region. From Cly Butte we passed two more unnamed buttes and then turned northward between vertical cliffs. The floor was sandy and in places difficult to traverse. The one thing you must maintain in driving over dunes is your speed; once you lose your momentum, down you go!

In the center of the little sheltered valley was a lone winter-type Navaho hogan, long ago abandoned, probably because of a death within its confines. It is a custom with these peoples to never again use a dwelling after someone dies in it. At the edge of the cliff to the right was a weather-worn summer type hogan, made of brush and sticks, used merely to keep off the hot sun. The winter type dwelling is also made of poles and sticks, but the whole is then covered with mud, with only a single entrance, no windows, and a small hole in the ceiling to emit smoke. The floors of both hogans ("hogan" is the Navaho word for "house") are simply hard-packed dirt.

HAZARDOUS CLIMB

To the left, right at the base of a cliff and utilizing some of the large boulders which at some distant time had toppled down from above, was a small corral, the gaps between the rocks filled with brush to keep the sheep and goats inside. Just beyond, up the nearly vertical face of an exposure of smooth sandstone, Jack pointed out a series of shallow holes that were cut and worn in the rock. These were steps, toe-holds and hand-holes, used by ancient Indians in climbing to the top of that mesa. I marvelled at the thought of anyone being able to scale that cliff by that route, little dreaming (as will be described in a later column) that I myself would hazard just such an ascent.

As we came out into a clearing, another canyon opened up to the left, and there, beyond some sand dunes, we saw the famous Totem Pole, which rises higher than the Empire State building straight into the air. It is a very narrow

sandstone column, not more than twenty feet through at its narrowest portion, and the outermost of a series of isolated thin upright structures. In the canyon out of view directly in front of the Totem Pole are some of the highest, most beautifully colored sand dunes I have ever seen anywhere. Some of these rise nearly six hundred feet, and are a deep orange hue.

NATURAL BRIDGES

We took a very short detour to the right, up a narrow canyon to view The Eye, the first of the natural bridges I was to see in the Valley. In comparison with the others, The Eye is not spectacular, but it nevertheless is a picturesque arch, nearly a 1000 feet above you at the top of the cliff.

On our way again, we sped over a sand dune and into a recessed area in the cliffs. Here were a group of trees about a concrete watering trough, constructed by the Indian Service to protect the Navahos from drought. Rain and wind had carved a large cylindrical depression in the side of the nearby cliff. A cement dam had been built across the open end of this to make a natural reservoir. When you climbed up onto this dam and walked over the slippery rock to the far side, you got the impression of being in a hollow tube of rock, with only a narrow slit open to the valley. The bottom of this tube was now filled with crystal-clear water. The whole spot was an intriguing and restful spot as one could imagine, and though we wanted to linger longer, we must be on our way, exploring the riches of Monument Valley.

Around another cliff and over a long treacherous dune, we arrived at what was called Leon's Hogan. Leon has since moved out into the valley proper, but his several hogans still persist. Here are located two huge natural bridges side by side up in the cliff. The smaller opens downward, the larger, at an angle. In height, the larger is nearly two hundred feet. All of these rock "windows" appear small from below, but once you hike around and up on top of them, and look back down through them, you realize just how huge they really are.

LEAVE MUCH BEHIND

Only a short ways from these openings is a rock slide, worn in the sandstone by constant use of Indian children. Here, at an angle of about 45 degrees, is a narrow twenty-foot smooth area in the rock. We tested it out ourselves, leaving much of the seats of our pants behind.

After that defabrication, we decided the children must have used it in a standing position, not sitting.

Beyond the slide, protected by overhanging rock walls, were a number of petroglyphs. Petroglyphs are drawings scratched into the surface of a rock with a sharp piece of stone or bone, and these were evidently quite old and authentic, since they showed much evidence of being weather-worn. Most of the designs depicted here were of goat-like creatures, with long recurved horns over the back. They may have been intended to represent deer, but this is not too probable since deer are not present in the Valley. If they were supposed to be pictures of the pronghorn antelope, which did live nearby, then the artist was at fault in not showing the pronged ends of the horns. Such crude picture writing always arouses your imagination as to what the writer intended to convey, whereas often the Indian may just have been "doodling," passing away the time while encamped at that particular spot.

Around another bend and we reached what is called the Key-hole Bridge, about the same size as the larger of the two at Leon's Hogan. It, too, is a natural arch high in the cliff, also about two hundred feet in height but appearing taller because of its nearly vertical face. It always amazes me, whenever I see such a hole in the rock, that weathering alone can produce such perfectly round or oval, symmetrical openings, not once but so many times.

DESTROYED—
But Not Lost

Homes razed by fire can be rebuilt with funds provided from Fire Insurance. It's folly to risk losing everything . . . when low premiums can protect.

What's your Insurance Question?

... GUESS I GOT EVERYTHING
... MONEY, SILVER, JEWELRY,
... WAR BONDS — THIS WAS
... A GOOD TRIP!

Insurance Question:
How many insurance policies do you need to protect your valuables against theft, robbery—even "mysterious disappearance" . . . and to protect them both at home and away from home?

Answer:
ONE policy does it! Hartford "Residence and Outside Theft" insurance covers money and other valuables both at home and in your travels—anywhere in the Western Hemisphere! It's a big package of insurance, at a modest annual cost.

Christian Science Topic 'Adam and Fallen Man'

"As in Adam all die, even so in Christ shall all be made alive." This statement of Paul to the Corinthians will be the Golden Text of the Sunday Lesson-Sermon on "Adam and Fallen Man" in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston.
The Lesson-Sermon includes this Bible citation from Genesis: "And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image, . . . And God saw every thing that he had made, and, behold, it was very good. . . . Thus the heavens and the earth were finished, and all the host of them."
"In Science and Health with Key to the Scriptures" Mary Baker Eddy says, "All that is made is the work of God, and all is good. We leave this brief, glorious history of spiritual creation (as stated in the first chapter of Genesis) in the hands of God, not of man, in the keeping of Spirit, not matter,—joyfully acknowledging now and forever God's supremacy, omnipotence, and omnipresence."

Episcopal Church Plans to Honor Mothers on Sunday

Mother's Day will be observed in the Episcopal church, St. Paul's in the Desert, next Sunday at the 8 a.m. Communion service and at the Divine service at 11 a.m., with special prayers for mothers on earth and in Paradise and for children and mothers separated by land and sea, the Rev. Robert M. Hogarth, rector, said today. He will preach, he said, on "God and Our Mothers", from Isaiah 66:13, "As one whom a mother comforteth, so will I comfort you." The parish choir will sing "Lovely Appear" from Gounod's "Redemption", and Alexander Hammond will sing Franz Schubert's "Ave Maria".

Village Group to Attend Episcopal Session May 17

Lay representatives from St. Paul's in the Desert will attend the Episcopal Convocation, Friday, May 17, in Trinity church, Redlands, beginning with the Holy Communion at 9:30 a.m. The Rev. Robert M. Hogarth will preach the Convocation sermon on the theme, "The Cleansing Fires of Experience". The rector's car will leave the church at 8:00 a.m. Let him know if transportation is needed, he said.
A gathering of young people from this Episcopal Convocation will also be held at Trinity church, Redlands, on Saturday afternoon and evening, May 18, ending with a dance in the Parish Hall. There will be swimming in the afternoon at the Redlands University pool. Many Palm Springs members plan to attend.

Dr. Macartney To Attend 75th Anniversary

Dr. John R. Macartney, pastor of the Community church here, will leave Monday to take part in the 75th anniversary of the San Anselmo Theological Seminary, at San Anselmo, California. The doctor is an alumnus of that institution and while there will meet two members of his graduating class.

The event which has been named the "Diamond Jubilee", will see many of Anselmo's graduates present. This school has operated under the auspices of the Presbyterian Church and has grown from a small beginning to one of the outstanding religious centers on the Pacific coast. Courses are offered there today for those who wish to devote their lives to various phases of religious education, such as pastor's helpers, directors of religious education, leaders of church music and is open to both men and women. Throughout the years since its founding, large numbers of ministers have been graduated. The late Captain Robert M. Dollar of the Dollar Line Steamship company was a generous supporter of this school, bequeathing large endowments. Due to the increase in the population of California, funds for the construction of new buildings and dwellings for additional faculty members are being sought.
Recently Reverend Jesse L. Baird, president of the San Anselmo Theological Seminary spoke from the pulpit of the Community Church here.

Scout Council To Elect Monday

Annual meeting of the Palm Springs Girl Scouts Council will be held next Monday evening at 7 p.m. at La Cita cafe. It was announced today. Election of officers and discussion of plans for next year will feature the gathering.
Leaders of the various troops here during the past year will be guests of honor.

Stevens Pleads Guilty, Fined

Carelon B. Stevens, who was arrested in Los Angeles on complaint of a local hotel, holding \$272.62 in checks returned from his bank and marked insufficient funds, pleaded guilty to petty theft in Judge Eugene E. Theriault's court Monday morning.
The original charge had been grand theft but the defendant was permitted to plead guilty to a lesser charge on agreeing to make restitution. Stevens was fined \$50.00 and given a 10-day suspended sentence.

Mothers, Children to be Honored at Community Church

Mothers' and Children's Day will be combined into a single observance at the Community church Sunday morning, May 12. Songs and recitations by the children and the presentation of flowers to mothers will be a feature of the services.

According to plan, the youngest mother, the oldest mother, one with the largest number of children and the mother who had the largest number of sons or daughters in the military services, will be honored with the presentation of floral bouquets.

Elsewhere, Children's Day and Mother's Day fall on different dates. However, in Palm Springs, due to the exodus of persons here during the summer, both events are celebrated on the same occasion.

Services Sunday evening will be at 7:30 p.m., when the recently donated Bell and Howell motion picture projector will be used for

Gideons Conduct Church Services

Last Sunday morning the Gideons held forth in the Community Church. Visiting speakers were Don McPherson, vice-president of the Gilmore Oil company and M. J. Caldwell of Riverside. They told the story of the Gideons' organization and how they are presently engaged in a campaign to place a New Testament in the hands of 46,000,000 boys and girls in public schools.

Junior High Sermon Scheduled May 19

Junior High School baccalaureate services will be conducted in the Community Church, Sunday evening, May 19, at 8 p.m., Dr. J. R. Macartney, pastor, announced this week.

the first time.

It was also announced that the closing Sunday evening services of the season will be held on May 26. Dr. Macartney is seeking opinions from members of his pastorate whether or not they desire church services during the summer.

Pine Cove, in Idyllwild Area, Plans For Great Summer; Many New Cabins And Other Developments Under Way

Pine Cove, three miles above the village of Idyllwild, is a name to conjure with. There at an elevation of 6250 feet, the redolent scent of the pine trees lends zest to the life of the vacationer.

The area is resounding to the sound of hammer, saw, and the babble of the voices of workmen who are constructing a grocery store, beer parlor, restaurant, and a large undertaking by Don and Gerald Bardwell and Harvey Ashby. Don Bardwell is well known in Palm Springs circles as the traveling passenger agent for the Southern Pacific Railway company with offices on the grounds of the Desert Inn. His partner, Ashby, has a long time reputation as a builder of projects ranging from a small hut in his native Florida to mammoth undertakings for the government during the war just closed.

PIONEER COVE-ER

Up at Pine Cove the pioneer is C. A. Hoffman, who operates the Pine Cove Camp. He has had this business for the past nine years. He looks with pride about him now, to see the activity that has developed at Pine Cove since his arrival there. He and Mrs. Hoffman are the parents of four children and have four grandchildren. Two of his own offspring are still living there with him, while two are married. Hence the grandchildren of which he and Mrs. Hoffman are inordinately proud.

"Well," he said, "I'll have a few cabins for rent soon and then there is room for week-end picnickers and places where trailers can come to rest if they wish." Hoffman gives the impression of an easy going individual with all the time in the world to get where he wants to go and that all is fine with the world.

NICE WEATHER

His neighbor, in the same type of business, is Earl Dick. He was quick to point out that during the hottest days of the summer, the temperature at Pine Cove has never been known to go above 80 degrees Fahrenheit. All of his cabins, and there will be a few for rent right now, are furnished and provide house-keeping equipment.

Working side by side with Dick is his wife Gladys and three children. They are Irene, Earlene and Jack, 14, 11, and 10 respectively. Dick brought his family to Pine Cove more than a year ago from Riverside where he operated

a service station.

In addition to quite a number of cabins which Bardwell and Ashby are building, the latter is also supervising the construction of two mountain homes to be occupied by the families of these business associates. Both declared that about 6 to 10 of these cabins will be ready for rental on or about June 1. These cabins will have every modern convenience and will boast of comfortable furnishings.

PLACE TO EAT

A newcomer to Pine Cove to engage in business is Mrs. Reva M. Lewis, who also maintains a winter residence in Arlington. In the latter community she operated the Park Cafe and one of her businesses on top of the mountain will be that of managing a restaurant. In addition to the cafe she is also building a large grocery store and has already obtained an on-sale beer license. She is providing quarters for her restaurant help with most of her key personnel coming from her old cafe in Arlington.

She is not a stranger to Pine Cove and the San Jacinto mountains. An ardent fisherwoman, she has been coming to that area for the past seven years. Childless, she has raised two nephews, both of whom are still in the Navy. Some day she hopes to turn the Pine Cove business over to Roy Pierce, who is a chief petty officer with the Navy and who hasn't many more years to go before retirement. Miner Pierce, the other nephew, was a prisoner of the Japs until released by American forces. During his incarceration he went down in weight from 170 to 122 pounds, Mrs. Lewis said. Miner was captured when the submarine he served aboard was forced to the surface after being submerged beyond endurance of the men aboard.

Father McGann Honored Guest At Reception

Father Francis L. McGann, pastor of Our Lady of Solitude church, was honored at a reception and dinner held in the rectory and tendered by the men of the church's parish. The affair Monday night was featured by a spaghetti dinner prepared and donated by Harry Mutascio. Judge Eugene Theriault acted as the master of ceremonies and called on the men present for speeches. Church improvements were discussed and all were enthusiastic over the news that a cooling system would be installed in the church this week.

Earlier in the day, members of the Altar Society of Our Lady of Solitude met at the home of Mrs. Nora E. Simpson, 567 Calle Santa Rosa. The meeting was well attended and refreshments were served. Father McGann was present.

Those present were: Mrs. Earl Hough, Mrs. Alice Guthrie, Mrs. Donald McMahon, Mrs. Harold Sweet, Mrs. Ella Steffanson, Mrs.

Republicans Hold Slight Lead Here Tabulation Reveals

When Palm Springs goes to the polls June 4 to vote at the all-important state and national primary, 1821 Villagers will be eligible to cast their ballots. J. C. Roberts, election deputy on the staff of County Clerk G. A. Pequegnat, said Monday.

Republicans still hold a lead here with 861 G.O.P. voters registered again 813 democrats. The other 147 are divided between "decline to state—non partisan" voters and other parties.

49,852 IN COUNTY

In the county as a whole, 49,852 voters are registered for the June 4 primaries.

Democrats lead Republicans in the county by 207 votes, the line-up being: Democrats, 23,789; Republicans, 23,582. Other listings were: declined to state, 1705; non-partisan, 422; prohibition, 145; socialist, 21; progressive, 16; Townsend, 20; independent, 50; communist, 2.

VILLAGE TABULATION

Roberts reported the division between major parties here as follows:

Precinct	GOP	Dem.	*Total
One	129	94	250
Two	137	263	420
Three	151	123	291
Four	41	18	67
Five	131	73	212
Six	113	123	274
Seven	68	35	117
Eight	91	84	190
	861	813	1821

*Discrepancy in totals due to fact other classifications not listed.

Highway 99 at Monroe St.

Two PhonesIndio 7565
Indio 7368**Collins Urges Lyon's Election At Polls June 4**

There are about 400 men, leaders in all walks of life and residing in every part of the state, who have served with Charles W. Lyon, speaker of the assembly, during his extended and notable public service to the people. They are all personal friends of the speaker and the great majority are active supporters of his candidacy for lieutenant governor.

Assemblyman Sam L. Collins of Fullerton points out that Charles Lyon has been speaker of the assembly during the entire incumbency of Earl Warren as governor, and has given valuable aid in shaping and steering all the liberal and constructive legislation which has been enacted by the legislature during the past four years.

Assemblyman Collins reminds the voters that by electing Speaker Lyon as lieutenant governor they will not be losing the services of a trained and forceful legislator because Speaker Lyon will then become presiding officer of the upper chamber... the Senate... where he may continue to work in perfect harmony and understanding with Governor Warren, himself a candidate for reelection.

Loon, Captured At Airport Here, Having Easy LifeBy T. D. A. COCKERELL
Of The Desert Museum

Some time ago a Loon was brought from the airport, having been wounded by a plane, but apparently not fatally injured. It was placed in a box at the Museum and Mrs. L. Doyle and Mrs. L. M. Jones, visiting Palm Springs from Alhambra, kindly undertook to take it to some place where it could be cared for. We now hear from them that the humane officer at Pasadena will take charge of it and will take it to Wilson Lake. It will be cared for until it is able to take care of itself. The specimen was a Common Loon or Great Northern Diver, an adult in summer plumage. It is a large and beautiful bird with a long, sharp bill, black head and row of white spots on the back. They breed in the far north, even in Greenland, and fly southward in the winter.

They fly very swiftly and dive rapidly, feeding principally on fish. It has been noted that when pursuing swift fish under water they often use their wings, by means of which they can overtake the swiftest. When the loon alights, it often shoots spirally down from a great height and plunges into the water like an arrow from a bow, as related by E. H. Forbush.

The nest is usually a mere hollow in the shore near the water's edge on some island in a lake or pond. When the young are hatched, the mother carries them about on her back for a few days.

Dr. James P. Hatch of Springfield, Mass., says that early in the morning the parents and the well-grown young run races on the lake, using their broad paddles for propulsion and their half-extended wings for partial support. Starting all together, they race down the lake, and then, turning, rush back to their starting points.

Former Villager Takes Part in Fair

Lawrence E. Hovley, formerly of Palm Springs and now a student attending California Polytechnic college at San Luis Obispo, played a prominent part in the only county fair held on a college campus in the United States last Friday and Saturday. A rodeo, livestock judging contests and all other events of the range were staged.

Sheptenkos Purchase Property on Drive

According to word from County Recorder Jack Ross' office this week, Bennie and Alzida Rizzotta, owners of a gasoline station and garage at Alejo and Palm Canyon drive, have sold the property to Peter B. and Vera Sheptenkos of this city.

The property brought in a substantial figure, according to revenue stamps affixed to the deed.

Atomic Bomb and Its Meaning, Topic Of Museum Talk

Dr. Lawrence M. Klauber's discussion of "The Atomic Bomb" was a fitting close to Desert Museum activities. He spoke as an engineer speaks of the ages through which all pass — the steam age, the electrical age, and now the atomic age.

He dwelt as a naturalist might dwell on the current fallacies in regard to the bomb, fallacies spread to cause fears and misunderstandings among nations and, quite as disastrous, distrust among groups of American people.

Though Dr. Klauber is frankly a humanist, and sees a great step forward for human beings with the use and understanding of atomic energy, he does not think these benefits will come automatically. He discussed the different ways proposed to deal with atomic power, and concluded that the only really practical thing is a system of international control.

His charts were of very special excellence, and when Palm Springs has a larger museum, there will be a place for an exhibit of just such charts. The T. D. A. Cockerells, in charge of the Museum, feel that more and more the Museum must become a center for the presentation of advancing thought.

Desert Inn About to Close Its Gates At Conclusion of 37th Year; Many Stay To the Last Day to Enjoy Desert Sun

By MARY WALKER

The Desert Inn is about to close its gates for the end of its thirty-seventh glorious season, and many Southern Californians are among those who have remained to enjoy the last few days of hot weather before the season's fun comes to an end.

The past week has been crowded with gay events, but spotlighting them all was the charming outdoor dinner party given at the palm-covered ramada on the mountainside just back of the Inn. Climbing the hill at sunset, guests reached the ramada to find tables set and steaks broiling over an open grill. After a delicious dinner, while guests lingered to enjoy the starlit desert vista far below them, Johnnie Boyle brought out his guitar and all joined him in singing favorite western and Hawaiian songs.

Among Southlanders having fun at this soiree were Dr. and Mrs. F. C. Fishbaugh of Pacific Palisades, Miss Elaine Moreno of North Hollywood, Mr. H. H. Bartlett of Los Angeles, Miss Elizabeth Michaelson of Beverly Hills, Mr. and Mrs. Don Belding of Los Angeles, Miss Betty Petriquet of North Hollywood, Mr. Al Ather-ton of Los Angeles, Mr. L. J. Dic-tanis of Glendale, and Mr. and Mrs. Lee Miles of Los Angeles.

SQUIRES RETURN

Assembling at the Desert Inn for their twelfth annual outing was the fun-loving group known as the "Squires". Sixty-five strong, club members and their wives arrived from Los Angeles for over the weekend, and between swimming and dancing, golfing and riding, there was not a dull moment for any of them. Earl Wright is president of the "Squires"; C. W. (Pike) Mason is chairman of the board, and Harry Smith is again secretary. Among other members here for this gathering were Mr. and Mrs. Jack Bryant, Mr. and Mrs. Harry Hillard and daughter, Mr. and Mrs. C. E. Memory and daughter, Mr. and Mrs. H. W. Scarborough accompanied by Miss Sherry Scarborough, Mr. and Mrs. M. Morgani, Mr. and Mrs. Don Capucio and others.

Great excitement at the Inn over the elopement of two favorite young guests, pretty blonde Jeanette Hunt of Los Angeles, daughter of the J. Wendell Hunts, and Denis D. Alexander, son of Mrs. Arthur H. Laack of Santa Monica.

Last Friday evening while dining with their friends, Mr. and Mrs. Frank Viault, Jr., of Beverly Hills, who are also guests at the Inn, this young couple decided on the elopement to Yuma. Accompanied by the Viaults, they drove to the Arizona Gretna Green for the ceremony and were back at the Inn in time for an exciting wedding breakfast served to the accompaniment of popping champagne corks.

BY PRIVATE PLANE

Popular weekend guests who flew down by private plane were Lt. Commander A. M. Roberts and Lt. J. W. Kreuger of the U. S. S. Shangri La, which is the Flagship for the atomic bomb. Mr. and Mrs. M. Pahlabob of Beverly Hills have been seen quietly dining by candlelight out on the terrace these warm evenings, with Mrs. Pahlabob looking every inch the Iranian princess that she is. Lt. Commander and Mrs. C. C. Worley are the lucky bride and groom who have been occupying Honeymoon Cottage here at the Inn for the last week of the season.

The tennis court, festive with colorful lanterns, has been the scene of several formal dinner dances this past week, but that Hawaiian party held by the boys and girls from Coachella High School last Friday evening was really unique. Guests wore colorful south sea island leis for this occasion, and Hawaiian music predominated throughout the evening. That group of pretty girls, who with their escorts attracted so many admiring glances at the Saturday night dinner dance, were all sorority girls from the University of Redlands.

Hogs can probably make use of more different kinds of food than any other farm animal.

Small Businesses Finding Financial Aid in California

Enterprises in the well publicized "small business" categories are finding their financial needs well taken care of through private enterprise banking in California, according to figures just made available by the Bank of America and received here this week by Fred Ingram, manager of the local branch.

Last year the bank supplemented its many lending services with a "term loan" plan which provides capital funds in the small business field. It is now stated that in the first 12 months under this plan the bank has made 3,750 loans of \$10,000 or less for an aggregate of \$14,211,389, an average of \$3,789 per loan.

84 DIFFERENT TYPES

According to E. A. Mattison, executive vice president in charge of promotion of loan services, these capital loans have been made in 84 different types of business activity and were either for expanding or rehabilitating existing enterprises or for aid in starting new ones. One recent case was a small independent rural manual telephone system which had badly deteriorated; the loan will make possible a greatly improved service and, eventually, the installation of a modern dial system. Most loans are for essential types of businesses and services, although there is a sprinkling of new and imaginative enterprises among them. A "hobby center" in a residential suburb is one of these.

INCREASING STEADILY
The volume of capital loans is steadily increasing month by month, Mattison states, and during last March 616 loans were made for a total of \$2,111,744. In addition many hundreds of thousands of dollars worth of term loans in amounts over \$10,000 are being made. These figures do not include the rapidly growing number of business loans made to veterans under the G.I. bill.

All this, it is pointed out, is over and above the great volume of ordinary commercial loans made for operating purposes for the same categories of small business.

The first Congressional act providing anti-trust legislation was enacted by the Congress on July 2, 1890. It was known as the "Sherman Act," having been fathered by John Sherman, a Senator from Ohio.

Idyllwild Busy Scene as Mountain Resort Prepares for Greatest Season In History; Expansion Is the Rule

Idyllwild, a mile high in the San Jacinto mountains in the throes of the greatest expansion in its history, is also frantically preparing for the biggest vacation and tourist crowds in its history this summer.

Workmen are scurrying around a-top that mountain, renovating cabins, building homes, stretching electric lines, while just outside the village the incessant whine of the sawmill can be heard. Homesites are figuratively selling as fast as an icecream cone on a hot day in Palm Springs.

HAVE COMMON GOAL

Unlike most mountain resorts, the village of Idyllwild gives the

impression of any lowland town whose citizens are proud of their community, invisibly bound together in a goal of great civic achievement.

There's Jerry Johnson, in real estate, who has been in Idyllwild for many years. When asked how business was he replied that it was no longer a matter of selling, but one of obtaining the right

homesite for people who would be an asset to the community.

Situated right off the main square of the Village is one of the most completely stocked food stores. Under the management of Harold Sanborn, the Idyllwild Grocery Store would do justice to a town three times the size of this mountain resort. It also boasts of an elaborate meat department.

NEW BUILDING

The Idyllwild Inn under the management of gracious Bud Funk, towers above the rest of the buildings in the area. It's a new building, having taken the place of the inn which burned down many months ago. Naturally villagers gravitate in its direction. Among its features is a giant lobby with a huge fireplace at one end. The lunch room is now in operation but the large dining room will soon be opened. Stretching out from the Inn are cottages which the management rents. Right now Bud said every cottage is spoken for and those now under construction or refurbishing are only waiting to be finished before they too will be occupied.

W. C. Postes of the Idyllwild Ice, Fuel, and Supply Co. also handles household appliances. He, like all persons in the latter business, complain of insufficient stock. Just the same, the other departments of this concern are running full blast with the summer season hardly begun.

If milady wants cold cream, toilet articles or other drug sundries, there is the store operated by George Green under the name of Idyllwild Sundries. In this well arranged establishment there is also a fountain that dispenses any and all of ice cold delicacies. "We have films for sale too," smiled Green, "when they send it to us."

BUSIEST MAN

Jack Gallant, who operates the

Idyllwild Sawmill, is about the busiest man on top of the "hill" and probably the most harassed. Despite the full blast operation of the mill, the supply of cut timber can hardly keep pace with the ever growing picture of construction. Such trees as are permitted to be cut down, are immediately dragged to the saw mill, while the owner of the timber waits impatiently for the finished lumber to come out of the other end of the mill. Working with him and just as hard is Mrs. Jack Gallant.

And Idyllwild has its suburbs too. Three miles above the village is Pine Cove, now expanding rapidly, and Fern Valley where a \$200,000 building project is under way.

MECCA FOR VILLAGERS

In addition to all of the conveniences listed for a person living there, the year around and most of its residents do, there is swimming, horseback riding, a clothing store, hardware store and a well equipped dairy.

Most of the people will warn the summer resort not to come up to Idyllwild ready to move into a cottage or home. They advise to make reservations in advance or come up for a visit and make reservations for a future date.

The nights up there are cool and the days just comfortably warm now. Many Palm Springs winter residents have homes there too. Mrs. Upham Bigelow occupies a beautiful home there as does Carl Lykken. Other prominent Villagers have mountain homes there, too.

Miss Woodbury Hostess for Staff of Sun

Miss Lois Woodbury, daughter of Mr. and Mrs. Glen Woodbury, was hostess Monday night at a supper party for the staff of The Desert Sun where she has been in charge of the large classified section for the past few months. The affair was held at the home of her parents, 527 Plaza de Amigo.

Following a delicious supper, the evening was spent in dancing on the patio and in listening to music.

Present were Mr. and Mrs. William Rashall, Mr. and Mrs. William Thurman, Mr. and Mrs. Woodbury, Mr. and Mrs. Harold Barkow, Bob Gane and R. F. Graettinger.

Greatest Books Topic of Talks At Library Here

First of a series of discussions on "101 Great Books in the Modern World" was held in the patio of the Welwood Murray Memorial library yesterday. The next one will be held next Friday at the same place at 8 o'clock. The public is invited to attend these informal discussions.

Subject of discussion yesterday was Aristotle's "Poetics". Next week Sophocles' "Oedipus Rex" will be discussed.

The Village discussions are a part of discussions being held throughout the nation on the great books as a means of basic lessons for a more civilized society.

Veterans Urged To File Claims Soon

O. M. Ward, deputy assessor for the local area, said that he had completed all property assessments and that his job was complete except for receiving veterans' exemption claims.

Veterans who have exemption claims to file should do so at once. Mr. Ward can be found at 1111 San Jacinto way.

Importance, Need of Hospital Here Again Shown

Again emphasizing the importance of the Palm Springs Community hospital and the great need it is filling, Ernest Alschuler, vice-president, this week called attention to a new service.

"Judge and Mrs. David M. Poste of Twentynine Palms Community run a cooperative ambulance service supported by the community. The judge gives service to the entire territory to take cases to the nearest hospital. Not only do they take patients to Loma Linda and Redlands but even going as far as Los Angeles.

"During the past week, by chance, Bill Nash who is a friend of Judge Poste, ascertained that Redlands and Loma Linda were filled up and attention should be called to the importance of a service of this sort because arrangements are now being suggested that they bring their cases into the new Palm Springs Community Hospital.

"This is just another illustration of how urgently our hospital is needed and what is of more importance is the marvelous cooperation being given by Judge and Mrs. Poste and their community in offering a service of this sort."

Red Cross Drive Still 10 Per Cent Short of the Goal

Monthly meeting of the Palm Springs branch of the Red Cross was held Wednesday at the Red Cross headquarters on the Torrey Hospital grounds. It was voted to make this the last meeting until September 11.

Special report was made of the wonderful work the nurses' aides were doing at the Palm Springs Community hospital. Any trained Red Cross Nurse's Aide who can help is asked to contact Annette at Annette's Beauty Shop, as more help is needed.

The work room of the Production department is closed for the season but the Red Cross office will be open from 9 to 12 noon on Mondays and Fridays.

Today's report of the Fund drive is that it is still lagging by ten percent of the quota.

"This is the first time that Palm Springs has ever failed to meet their goal," said Anthony Burke, chairman. "Any check, large or small, will be greatly appreciated as the American Red Cross has as always a great deal more to do."

From Head to Toe

By BARBARA K. SCHILLY

Pockets used to be made for utility purposes... their prime reason for existence being to hold things... and they still are... that is, whenever they aren't used for decorative purposes. We've seen them a hundred places where we are sure they serve no practical use... except to add a smart touch... and that they manage to do.

Adrian, famous designer and originality's staunch friend, has gone wild with pockets and one is apt to find them on many of his creations and in many strange places.

For instance... on a suit jacket sleeve... right in the middle he has placed a very obvious pocket... flap and all. We peeked under the flap to make positive and were pleasantly surprised because quite sure enough... there was a real pocket. Useless... but attention getting.

On skirts we have seen them in the strangest places also. Mr.

Adrian decided to put two pockets diagonally right over the front hip bones... sounds weird, but please take our word for it... the result was a skirt that was something more than merely the accompaniment to a scene-stealing jacket.

Then we have seen hip pockets... yes... regular old-fashioned hip pockets... some even go to the extent of adorning themselves

Villagers Hosts To Long Beach Guests at Party

The Long Beach members of Delta Chapter of Lambda Sigma Pi Sorority were entertained at a "Brunch" last Sunday, April 28, at the home of Mr. and Mrs. Ralph Shelley, 463 Vereda del Norte, Palm Springs.

A most delightful time was enjoyed in the spacious home and gardens and a delicious luncheon was served in the patio to the twenty guests who drove down from Long Beach.

The occasion also served as a miscellaneous shower for Mary Mueller Cook, one of the Sorority members, in honor of her recent marriage to Thomas G. A. Cook of Long Beach, and she received many lovely gifts which were wheeled to the patio by Mr. Shelley in a wheel-barrow profusely decorated with myriads of colorful flowers from the Shelley gardens. Each package was also decorated with flowers. Mr. Shelley, the driver of this surprising vehicle, was picturesquely arrayed in a complete cowboy regalia and the hostess and guest of honor wore colorful Mexican costumes recently brought back from Mexico by Mr. and Mrs. Shelley.

After the gifts had been opened and exclaimed over, the new bride was given a ride around the patio in the "barrow", sitting like a queen among all the beautiful flowers.

It was an occasion which the Long Beach guests say they will long remember.

His Nose Knew

Pete Di Cicco
Prevents Bad Fire

Peter Di Cicco, well known Villager, has a keen nose. Because of that, what might have been a disastrous fire in a local downtown hotel was averted.

Di Cicco was awakened about 1 a.m. by the smell of smoke. Investigating he found the source in a room across the hall.

When he entered he found a bewildered man watching a mattress blazing merrily. He tried to smother the blaze and then, after calling the fire department, organized a bucket brigade to keep the flames under control until their arrival.

Di Cicco was much praised for his bravery in attempting to subdue the blaze at the risk of personal injury.

Los Compadres to Start Annual Pack Jaunt on Sunday

Up at the crack of dawn Sunday morning will be approximately 35 members of Los Compadres club.

At 5 a.m. they plan to take off on their ninth annual four-day pack trip, a rugged ride over the mountains on which they will

rough it as did the early-day riders.

The cavalcade will go in from the Cabazon side and spend the first night at Water Hole. The second night will be spent at Idyllwild and the third at Bunker's ranch. They will come out of the mountains through Palm Canyon returning here Wednesday.

President Kenny Paul of the Los Compadres will lead the ride.

"This is a real ride, not a sissy affair with stage coaches and chuck wagons. We're going to ride, every one of us, and we are packing everything in on horses," said one of the members today.

DUTCH BOY

A Famous Name in Paints

QUICK-DRYING ENAMEL

Dutch Boy Quick-Drying Enamel is decorative, durable, brushes out easily and smoothly and dries quickly with a high gloss and hard surface. It can be easily and frequently washed with mild soap solutions or prepared cleansers without loss of lustre or color. It is recommended for use on new and old furniture of wood, metal or wicker, and interior trim. Its toughness and speed of drying permits its use in place of interior floor enamels when desired for decorative reasons.

Fern Valley in Mountain Playground Area Scene of Great Construction Activity; Plan All-Year Around Resort

One of the most elaborate undertakings in the construction of a mountain retreat for vacationers is now underway in Fern Valley above the village of Idyllwild, high in the San Jacinto mountains. Estimated to cost more than \$200,000, the project will consist of a luxurious lodge and outlying cabins.

J. J. (Frenchie) Berkeley, prominent Los Angeles businessman, is personally supervising construction of the project.

MODERN HOTEL

Plans for the Lodge call for modern hotel rooms and suites, combined with a modernly equipped restaurant. Novel method in the construction of the mountain cabins, some of which are already completed, is the use of large plate glass windows to afford renters an unobstructed view of the surrounding mountain scenery. Each cottage will have an electric stove for cooking, electric icebox, and other up-to-date

conveniences. A cozy living room with fireplace is also a feature. The first one constructed and now furnished showed, in addition to the living room, the kitchen and a snug bedroom. Additional sleeping facilities are also provided.

Berkeley also announced that the fifty acres on which the construction is taking place will have, when completed, stables for horses, a swimming pool, a ski run and other items for both winter and summer sports.

NO SCARCITY

Scarcity of building materials now affecting lowland communities is apparently no obstacle at Fern Valley. Berkeley has his own timber standing on the 50-acre site and he also operates his own sawmill. In addition he cited the fact that artisans are not being drawn from other jobs outside of Fern Valley and Idyllwild

Troop 2 of Girl Scouts Holds Two Interesting Events

Troop 2 of Palm Springs Girl Scouts held two interesting meetings last week. On Wednesday they gathered at Frances S. Stevens school where the girls who are completing their second Craft badges filled their Literary and Dramatic Field by giving a Puppet show "Little Ships Under Full Sail". This is a very old play and a true story of the grandmother of Juliet Low, founder of the Girl Scouts of America. It depicted her experience with the Indians. The play was arranged for local presentation by Suzanne Watson and Peggy Jo Fleming.

Each girl who participated made and dressed her own puppet and read the lines in the dialogue.

Friday, the same troop met and girls working on their Minstrel badge prepared for today's meeting when a Steven Foster program will be given. Each patrol will present a skit in line with the day's theme.

with all of the workmen employed residents of the area.

Not far from the site of this great activity is the Fern Valley Lodge, the only place atop the mountain where "on sale spirits" is permitted.

Operated by affable and smiling Jim Weir, the cocktail lounge of the Lodge is a rendezvous for both all-year and part-time residents. Dancing is now also featured every Wednesday and Saturday night.

GATHER THERE

Many of Palm Springs winter and all-year residents who frequent or have homes in Idyllwild, meet at the Fern Valley Lodge during the cocktail hour.

Adjoining the lounge is a large dining room where moderately priced food is served from a well supplied and equipped kitchen. Villagers from here who have dined there have declared the food excellent and the man behind the bar in the cocktail lounge an expert mixologist.

W. R. Boyd Now In Florida But Wants To Return

W. R. Boyd and Mrs. Boyd have arrived in Miami, Fla., after leaving here and traveling via El Paso and New Orleans and Tallahassee, Fla.

The big crowds are gone, he wrote, but there is still much activity, especially at the beaches, cafes and restaurants.

What Goes On in Rancho Mirage

By DON CAMERON

Nothing could have given me a greater thrill than the tax sale at Coachella last Saturday, with Chief Engineer J. H. Snyder emceeing the event. Rancho Mirage was the main event at that show, when a dozen people were fighting to acquire one of our little beauties. It would be criminal for me to tell you the price I originally sold this lot for, but since Christmas these same lots have been in the \$1,000 class. The bidding soon passed Jeanne Keller's \$1,800 offer (thax, Jeanne) and after passing the \$2,000 mark, narrowed down to two contenders. The winner, who already owns property here, paid \$2,110. The loser, who had stopped at \$2,100, was Dr. Kenneth S. Hayes, who owns one of the original date gardens in Indio. As a consolation prize, he and his sister, Mrs. Florence H. Taylor, came to see me the same evening, and they have now joined the ranks of satisfied Rancho Mirage customers.

The same day two more Indio residents, William and Margaret Scott, both teachers in the Indio school, came to rent a house, but found it quicker to buy a lot and build. Although the roster of recent Rancho Mirage purchasers contains names from the principal cities of the United States, the Hayes and the Scotts are the first from our neighboring desert metropolis, Indio.

Back from near my own bailiwick came the Joseph Johnsons of Gross Point, Detroit, to buy a lot. The Johnsons were so determined not to miss one of our little 120-ft. frontages, that we had to give them jeep transportation from Palm Springs at 6:15 a.m. From their lot they photographed the awe-inspiring view of San

Jacinto and San Geronimo peaks. Since the jeep service was so successful, we will be glad to extend this service to others who may find themselves immobile.

Numerology has come to Rancho Mirage. Dr. Grace Edwards of Los Angeles, following the example of her friend, Dr. Helen Privette of Long Beach, in purchasing a lot here, used this unusual method in choosing a home-site for herself and her daughter. Dr. Privette, who has had a house in Palm Springs the past season, plans to build a home and office combination on her property.

The great Daniel "Adobe" Magdiel having progressed with the Bernard Gallagher project to the point where the walls on the first unit have been poured, Sigrid hauled Bernie off to Tahoe.

Bill Nash's California Water & Telephone company came in for a round this week, when the popular Frances and her husband, George Salensky, bought a lot.

Tonight's the night, folks. Rancho Mirage American Legion Post No. 701 is playing host to Legionnaires and their friends, with an outdoor party at Magnesia Canyon. Please don't try to drive in to the Canyon, as you will likely bog down in the sand. George Kreimer, our local cement contractor, has kindly loaned us a GI front wheel drive vehicle, in which we will transport you to and from the canyon. Stop at the office and get directions.

See you tonight in the canyon. Cheerio, mates!

Old Timers of Cathedral Area Back for a Day

I. Jacobsen, former pioneer resident of Cathedral City, came down from Hemet with his truck Sunday, to pick up furnishings belonging to George Washington, another old-time resident, and take them to Hemet where Mr. Washington has also purchased a home.

The Jacobsens came to the desert in 1929 and built and operated the Cairo Court, which was partly destroyed by fire several years ago. The property was then sold to the Randalls and the name changed to Sun-Dial Court.

George Washington, our other pioneer resident mentioned above, came to the desert in the very early days and built one of the first houses here at Cathedral. This little house at the corner of Van Fleet and "B" was leased in 1930 to Agnes Pelton, well known local artist, where she lived for many years and where she did some of her finest paintings. Also, she planted the desert garden which is still thriving back of the low stone wall. Several years ago Miss Pelton built her own spacious house at Chaparral Lane and F street, where she now has her studio and home. Kurt Reinman, another well known artist, then took over the little green house back of the stone wall and made his studio and home there until this year, when he also moved to Hemet.

Flood Protection Measures Talked by Park Committee

The Park Committee of the Chamber of Commerce was called in meeting on Tuesday at the parksite by Chairman J. W. Kyle. The main subject discussed was the need of a wall around the south-west corner of the park to protect it from water racing down Allen avenue and Second street during flash floods. Judging from signs of previous wash-outs it appeared that the wall should run 100 feet down Second street and at least 150 feet down the continuation of Allen avenue, which has been cleared as a flood channel as well as a street.

This project seemed to the committee too great an undertaking for volunteer rock gatherers and they also proposed that a wall of reinforced concrete similar to that around the adjoining school ground, two feet below the ground and two feet above, would prove more satisfactory than the proposed rock wall. It was recommended that Mr. Kyle contact a contractor to do the entire job and that a report of the estimate be made to the Chamber of Commerce at their next meeting. There is an urgent need for this wall to be built at once if the grading already done is not to be washed out in summer floods.

Open Forum

Dear Editor:

Every other subdivision around here has laid out a plan for a Civic Center before selling land for homes. Cathedral seems to have "Grown like Topsy" and should now look around before all the sites are taken for some land in the center of town. At present we have a land inflation boom but after flood control is done and other better planned subdivisions go on the market this town must have something to offer such as the Plaza in Palm Springs and the business area at Palm Village and Rancho Mirage. Mr. C.

To the Forum:

With garbage cans so hard to obtain why can't we have a little more co-operation in their protection from the garbage collectors? Is it not possible to empty the containers without banging the edges or throwing them down from the top of the truck, smashing them out of shape so badly that the lids do not fit and flies have a heyday. It's no wonder some people resort to carton boxes in defense. The collectors do not always replace the cans but leave them so far out in the road that they are hit by passing cars. Some people who have suffered unnecessary damage to new cans are threatening to take it out of their monthly garbage dues. This would make everybody suffer. Why not take it from the wages paid the collector? If this happened he might exercise a little care. Mr. A.

Open Forum:

How is it that Mr. Hillery, who has been such a rooster for Cathedral City in the past, is writing in the Palm Springs section of the Desert Sun? Is he an isolationist by choice or has the Editor misplaced his column? Mrs. P.

Farewell Party Tendered Guilds At Manson Home

In the yard of the Dawson home a most enjoyable weine-roast party was given on Monday evening when some of the neighbors gathered to bid farewell to the Homer Guilds who were leaving for the summer the following morning. Mr. and Mrs. Gould are stopping at their newly-acquired Yucaipa fruit ranch home for several weeks before they leave for Downville, where they are still in the throes of disposing of their properties. Hereafter, it looks like Mr. and Mrs. Gould will divide their time between the desert and Yucaipa.

Personals

Mr. and Mrs. Walter Strong have moved to their summer home in Beaumont.

Fishing was good at the High Sierras over the weekend for Walter Colgazier, Harold Crawford and Bob Camp. From all reports they caught their limit of trout—great big ones, too!

Ray Potter and Claude Cobb were buddies for a day this week when they parked fishing poles and tackle up yonder in Whitewater. The fish caught were small but mighty—ahem, tasty!

Raymond Hatton's new fire-places have been ably assisted on their way by Joe Hildreth, who knows his stuff along this line.

First Lt. G. M. Smith and his buddy, Capt. Dick Brubaker flew in for a two day visit with his mother, Mrs. W. J. Naef. Both flyers made the most of their time between visiting Palm Springs spots, Cathedral City sunshine and Palm Village pool.

An impromptu birthday party was held at the John Palmer home for their charming but inexperienced daughter, Vickie, one year old. Ten little kiddies frolicked around and helped Vickie celebrate her natal day.

Speaking of birthdays, Marie Ide celebrated hers with a large gathering at the Larrison ranch this past week. Dinner was served in a delightful manner, birthday motives adorned the tables and a bang-up time was had by all.

Shirley Smedley attended a nice party at Barbara Connell's home in Palm Springs. About 15 children were there.

Mrs. Gertrude Machin of Laguna Beach spent a delightful week as guest at the home of Mrs. Ann Reilly.

Harriet Colgazier is Postmistress during Mrs. Edna Cobb's absence and Viril Phillips is her able assistant.

Mrs. Ella Dorn has not been seen cruising around lately. Guess the reason is the new cooler installer in their home. How about settling some civic problems while the cool breezes blow?

Besides Mr. and Mrs. Raymond Hatton, Lydia Engh entertained Mr. and Mrs. George Koogler of Los Angeles as guests at her cottage.

The Ladies' Auxiliary met for their sewing circle in the Town Hall. Many ladies of the Community Church attended.

Rev. John Abels and Jim Wolseth came home Sunday night from a glorious trip to Boulder Dam, Zion, Bryce and the Grand Canyon. Except for "brake" trouble, all went well.

We are glad to report Dick Landucci back again, no ribs broken and only a cut nose showing from his car smash of a week ago. He was absolved from blame in the accident.

The first session of the United States Supreme Court was held on February 1, 1790, in what was known as the Royal exchange, on Broad street, in New York City.

Ohio, Indiana, Illinois, Michigan and Wisconsin produce the larger part of the cheese production of the United States.

Improvements for Roads Promised by County Official

The Road Committee from the Civic Club reports that Mr. Stalard, Road Superintendent from Riverside county stationed in Thermal, made a trip to Cathedral last week and offered to pave still another road besides Cathedral Canyon Drive. He was informed that the consensus of opinion was that Second street, from Highway 99 past the post office and joining up with the paving in front of the school should be the next in line and he has agreed to do this. He also requested that he be notified of poor condition of the roads which have not been accepted by the county for "permanent" improvement but yet are still county roads and as much must be kept in usable condition. He agreed to place barricades and lights immediately after floods wherever there was danger and to scrape and fill these places as soon as possible.

As yet no formal answer has been received from the Riverside County Board of Supervisors in response to the request of the community that the dirt roads be kept in better condition from now on.

Former Service Man To Take Abode in Village

The Dewey Fishers came from Oklahoma and were stationed in Palm Springs during the war when Dewey was a Sergeant in charge of the petroleum office at the local air field. Previous to coming here, he had been stationed in Newfoundland for fourteen months and says he is still thawing out.

Mrs. Fisher is employed at the Desert Cafe and Dewey is now working for John Cordell doing construction work. They will take charge of the Sunhaven Courts for the summer after a holiday in Oklahoma in June. They have a daughter, Janice, age 17 months.

The city of Topeka, Kansas, was first settled by anti-slavery people from the eastern part of the United States in 1854, soon after the passage by Congress of

Doing the Villagewith
Moya Henderson

This week featured birthdays it seems. Marion Mathews' natal day was Saturday and she and Charlie celebrated together. Ruth Hardy invited her friends over for cocktails at Ingleside Inn on Monday—the occasion, her birthday. Bob Dart appeared at school Friday with a gorgeous three layered cake baked for his birthday by his sister, Barbara Hinkle. As a tester of same, I can honestly say that not only is Barb a good cook but a wonderful sister to bake a cake in this weather. In honor of the coming nuptials of Lori Lee Bering and Tom Lyon, Jr., Bob played host at a dinner party Saturday night up at the Tennis Club. Surprise of the evening was the presentation of an elaborately decorated birthday cake prepared for Bob by the Berings. Said cake was trimmed with trees, corals, horses and everything but a life sized saddle. After dining and dancing the evening ended with a dip in the pool. Mr. and Mrs. Lee Bering entertained the group with a cocktail party at their home preceding dinner.

ANOTHER ONE

And another birthday was added to the list when Mr. and Mrs. Earl Coffman became the parents of a son Monday, April 6. The baby was born at the Riverside Community Hospital. Wednesday was the 29th (if my adding is correct) wedding anniversary of the C. S. Hendersons. Mrs. Henderson

son was out of town for the occasion so they'll celebrate together a week late.

As the temperature remains steadily on the warmer side Villagers are once again thinking of dragging out the suitcases and roadmaps and taking off for the summer months. Elmo Purnell has joined the Idyllwild Colony and became proud owner of a cabin in the Wildwood Tract last Sunday. Mary Delano is busy planning the interior of their cabin on Circle Drive. Gordon and Vera Nicholson are making frequent trips up the hill to supervise an addition to their damage and, with an increase this year in the Paul family, Kenny and Virginia are taking the same steps. Arrowhead, as ever, will be a favored spot with many Palm Springers. Fern Jones is one of those lucky people who owns a lakeside cabin. Dr. and Mrs. Staley will also return to the lake this summer. The Everett Lilleys have sold their Fern Valley house thinking they might prefer the San Bernardino range to go rustic in.

ON PACK TRIP

The largest crowd to ever participate in a Los Compadres pack trip will take off from the stables this Sunday morning for a scenic four day ride through the San Jacintos. Each day's stop is planned so that the chuck wagon still will be able to get to the riders and a piping hot meal served. By Monday night the riders will have reached Idyllwild and non-riding members will leave the Village for the evening and join the group for a rousing good time at Fern Valley Lodge.

John Ward Busy Keeping College Band on the Job

John Ward, son of Mr. and Mrs. O. M. Ward, 1111 San Jacinto way, will spend the summer at Yosemite. He arranged that vacation himself and will get paid for going.

Young Ward is business manager for the Collegians, a Pomona college dance band, and has been busy lining up dates for the group. They have played many college dances and also private and public dances in Claremont and Pomona.

The band is directed by Al Hendricks and through the Village youth's efforts, has been kept busy dealing out smooth rhythm.

Sgt. Priddy In Village on Visit

S/Sgt. Archie Priddy has been visiting in the Village, attired in civilian clothes. He was discharged from the army March 30, and has been living at Salinas.

Sgt. Priddy was stationed at Torney General Hospital for two years and became so interested in the Village that he plans to make his home here.

During his overseas service he kept up on the progress of the Village through the columns of the Desert Sun.

Each week throughout the present season has been filled with many events, which included the bi-monthly Sunday night western dances enjoyed both by guests at the ranch and Villagers alike. A string of enthusiastic equestrians have mounted horses each day all through the year to ride the desert trails and many joined the horseback trek to partake of the weekly luncheon rides to nearby canyons. La Paz's tennis court and swimming pool have been the center of sports for many noted champions.

This week's social calendar included a motor caravan to Palm Canyon where a fried chicken picnic was awaiting the shorts-clad sun-worshippers. Those in the party were Mrs. Bert Horswell, Encino; Mr. and Mrs. William C. Talbot, San Mateo; Mrs. P. J. Kirby and Mrs. J. M. McClintock, Altadena; Mr. and Mrs. R. Spevack, honeymooners from Los Angeles; Mrs. W. J. Voit and Mrs. Willard Voit with young Bill and Bob, San Marino, and the Pattiz family, Eva Lyn, Jackie Ann and Cathie Lee, with their mother, Mrs. Oscar Pattiz, of Beverly Hills.

Mr. and Mrs. L. M. Davenport, owners of the famous hotel in Spokane bearing their name, have been permanent guests at La Paz since early December. As the ranch is closing next week and they want to remain in Palm Springs through the month, they now are located at the Town House for the remainder of their desert sojourn.

Sunday evening Mr. and Mrs. Davenport were dinner hosts at La Paz to their houseguest, Mrs. N. A. Telyea of Spokane; Dr. and Mrs. Kenneth Hays, date ranch owners from Indio; Larry Hays, Ruth Sougey and James Fough. The party met at the cocktail hour beside the turquoise pool and later dined in the glass enclosed dining room which overlooks the ranch's spacious gardens.

Mr. Fouch, owner of La Paz, will remain in his Palm Springs home until mid-June when his two children, Jean and Jimmy, are to finish school. Later in the month they will move to their Arrowhead home, which adjoins the lake and is the scene of much activity aboard the Fouch launch.
